Executive Summary

This annual investment report covers the period from July 1, 2022, through June 30, 2023, and provides the financial results for the funds invested by the Judicial Council on behalf of the trial courts as part of the judicial branch treasury program. The report is submitted under the Resolutions Regarding Investment Activities for the Trial Courts, approved by the Judicial Council on February 27, 2004.

Relevant Previous Council Action

At its meeting on February 27, 2004, the Judicial Council approved several resolutions on investment activities for the trial courts. The resolutions direct that the Judicial Council develop an investment program for the trial courts, name the director of the Judicial Council's Finance Division¹ as the treasurer of invested trial court funds, and authorize the investment of trial court funds into (1) the State of California's Local Agency Investment Fund (LAIF); (2) Bank of America, N.A., investment funds; or (3) other investments as approved by the Judicial Council's Administrative Director. They also provide for quarterly reporting of investment results by the

¹ Effective October 1, 2012, the Judicial Council's Finance Division was renamed Fiscal Services and was part of the Judicial and Court Administrative Services Division. The office has since been renamed Budget Services and remains in the renamed Administrative Division.

director of the Judicial Council’s Budget Services office to the Judicial Council, the Administrative Director, and the senior manager of the Judicial Council’s Audit Services office.

On June 1, 2009, the Judicial Council’s Executive and Planning Committee, acting on behalf of the council, approved the investment of trial court monies in any share class of the two previously approved money market funds—the Bank of America Cash Reserves Fund (formerly Columbia Cash Reserves Fund) and the Bank of America Treasury Reserves Fund (formerly Columbia Treasury Reserves Fund)—and the addition of another money market fund, the Bank of America Government Reserves Fund (formerly Columbia Government Reserves Fund).

On July 11, 2016, the following three U.S. government money market funds were approved as additional eligible investments under the Administrative Director’s delegation of authority granted under the Resolutions Regarding Investment Activities for the Trial Courts: the BlackRock FedFund, the Morgan Stanley Institutional Liquidity Funds Treasury Portfolio, and the Morgan Stanley Institutional Liquidity Funds Government Portfolio. All three money market funds are registered with the U.S. Securities and Exchange Commission (SEC) under the federal Investment Company Act of 1940, operated in accordance with Commodity and Securities Exchanges, 17 Code of Federal Regulations part 270.2a-7, and are in the highest money market fund-rating categories of two nationally recognized rating agencies: Standard & Poor’s and Moody’s.

At its July 21, 2023 meeting, the Judicial Council approved an update to the Statement of Investment Policy and Investment Activities for Trial Courts, designating the Director of Branch Accounting and Procurement (BAP)² as the treasurer of invested trial court funds. This action was taken to align trial court investment responsibilities with the new reporting relationship wherein the Treasury Services unit resides in the BAP organizational structure.

Analysis/Rationale

For purposes of the table below, FedFund is the institutional share class of the BlackRock FedFund money market fund, Govt Fund is the institutional share class of the Morgan Stanley Government Portfolio money market fund, T-Fund is the institutional share class of the BlackRock T-Fund money market fund, and LAIF is the Local Agency Investment Fund.

Funds held in the judicial branch treasury: total investment portfolio

As of the close of business on June 30, 2023, total investment balances held by the trial courts purchased from bank accounts—directly managed by the Judicial Council’s Budget Services office—were as specified in table 1.

² Effective January 1, 2023, the Treasury Services unit was moved to the Judicial Council’s Branch Accounting and Procurement office which is part of the Administrative Division.

Table 1. Trial Court Investment Balances Managed by Judicial Council Budget Services

Investment Description	FedFund	Govt Fund	T-Fund	LAIF	Total
All dollar amounts reported in thousands (\$000)					
Section A, Book Values					
Beginning Balance–07/01/2022	\$78,281	\$0	\$324,565	\$437,781	\$840,627
Net Purchases/(Sales) ^a	(26,281)	490,000	(35,945)	(418,481)	9,293
Interest Paid ^b	16,751	10,581	10,059	2,060	39,451
Total Change	(9,530)	500,581	(25,886)	(416,421)	48,744
Ending Balance–06/30/2023	\$68,751	\$500,581	\$298,679	\$21,360	\$889,371
Section B, Fair Values–06/30/2023					
Net Unrealized Gain/(Loss) in Fair Value ^c	\$0	\$0	\$0	\$(324)	\$(324)
Ending Balance	68,751	500,581	298,679	21,036	889,047
Ending Balance Plus Unpaid Interest Earned ^d	\$68,751	\$500,581	\$298,679	\$21,204	\$889,215
Section C, Earnings and Statistics–06/30/2023					
Interest Earned ^e	\$16,751	\$10,581	\$10,059	\$1,256	\$38,647
Unpaid Interest Earned ^f	\$0	\$0	\$0	\$168	\$168
Average Yield ^g	3.63%	4.64%	3.64%	2.33%	4.17%
Dollar-Weighted Maturity (Days)	24	19	11	260	22
Credit Quality	Highest Rated	Highest Rated	Highest Rated	Gov. Code, § 16430 ^h	
Percentage of Investment Portfolio ⁱ	7.73%	56.28%	33.58%	2.40%	100.00%

^a “Net Purchases/(Sales)” is the net amount of court investment principal purchases and sales completed during the period.

^b “Interest Paid” is the total amount of interest paid to the investment account during the period and is included in the Ending Balance.

^c “Net Unrealized Gain/(Loss)” is the difference between the investment balance’s book value and its fair value at the end of the period. The net gain or loss is “unrealized” because the valuation at fair value is only for assets held by the fund at the end of the period. This net unrealized gain or loss would be “realized” (become an actual gain or loss) only in the event that all participants’ holdings in each portfolio were liquidated by the end of the period. Realized gains and losses are included in the average yield of the investment for the period.

^d “Ending Balance Plus Unpaid Interest Earned” is the ending balance at fair value plus interest earned that is unpaid as of the end of the period. This figure represents the liquidation value including unpaid interest earned only in the event that all participants’ holdings in each portfolio were liquidated at the end of the period.

^e “Interest Earned” is the total amount of interest earned during the reporting period.

^f “Unpaid Interest Earned” is the amount of interest earned during the period that is unpaid as of the end of the reporting period.

^g “Average Yield” is the simple average of the 30-day yields for each calendar month during the period, including any realized gains and losses, net of the investment’s operating expenses. The total average yield is a dollar-weighted average of the investment components.

^h The LAIF may invest the fund money only in debt obligations as prescribed in Government Code section 16430.

ⁱ The portfolio balance percentages are calculated using the book values at the end of the period.

The ratio of each investment's fair value to its book value (Fair Value Factor) as of June 30, 2023, was as follows:

- FedFund 1.000000000
- Govt Fund 1.000000000
- T-Fund 1.000000000
- LAIF 0.984828499

The Fair Value Factor is 1.000 for the FedFund, Govt Fund, and T-Fund because all holdings in the FedFund, Govt Fund, and T-Fund are valued at fair value daily, and "fair value" is the price for all daily redemptions and reinvestment transactions. Because the LAIF's operating rules permit the redemption, at any time, of all or a portion of any participating court's LAIF balance at its original purchase price, the court's redemption price is not affected by unrealized gains or losses.

Section A of table 1 provides the investment balances and activity for the period at book value or at original cost, plus or minus the straight-line amortization of any applicable discount or premium.

Section B provides the investment balances at their fair value at the end of the period. "Fair value" is the value at which an asset could be bought or sold in a current transaction between willing parties, other than in a liquidation.

Section C provides the investment earnings, the dollar-weighted average maturity, the credit quality, and each investment's percentage of the total investment portfolio. The investment balances in table 1 include the combined balances of both trial court operating funds and agency funds.³

Investment portfolio components

FedFund

The FedFund is a money market fund registered with the SEC under the federal Investment Company Act of 1940 and operated in accordance with Commodity and Securities Exchanges, 17 Code of Federal Regulations part 270.2a-7. Investment purchases and redemptions of FedFund shares are transacted when Judicial Council Treasury staff review the account balance daily at 11:00 a.m. PST and invest or return funds as appropriate to maintain the bank account's established target balance. A purchase transaction takes place if the cash balance in the account exceeds the target balance, and a redemption transaction takes place when the cash balance is less than the target balance.

³ "Agency funds" are balances held in trust pending resolution of civil or criminal court proceedings, as well as funds held on behalf of state and local agencies before their statutory distribution. Agency funds include the following categories: civil trust; criminal bail trust; uniform civil fees; and criminal fines, fees, and penalties.

In accordance with the aforementioned Code of Federal Regulations, the FedFund must maintain a dollar-weighted average maturity consistent with its objective of maintaining a stable net asset value per share, not to exceed 60 days, and must contain only first-tier money market debt obligations receiving a short-term rating from a nationally recognized statistical rating organization in the highest short-term rating category for debt obligations. The FedFund is in the highest fund-rating category of Aaa-mf by Moody's and AAAM by Standard & Poor's.

The FedFund invests only in high-quality money market instruments and invests at least 99.5 percent of its net assets in cash, U.S. Treasury bills, notes, and other obligations issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities, and repurchase agreements secured by such obligations or cash. As of June 30, 2023, the FedFund portfolio composition was as shown in table 2.

Table 2. FedFund Portfolio Composition as of June 30, 2023

High-Quality Instruments	Percentage of Portfolio
U.S. Treasury repurchase agreement	61.4
U.S. government agency repurchase agreement	15.6
U.S. Treasury debt	11.6
U.S. government agency debt	11.4

Included as Attachment A is the monthly fact sheet for the BlackRock FedFund institutional shares reported as of June 30, 2023.

Govt Fund

Like the FedFund, Morgan Stanley's Government Fund (Govt Fund) is a money market fund registered with the SEC under the federal Investment Company Act of 1940 and operated in accordance with Commodity and Securities Exchanges, 17 Code of Federal Regulations part 270.2a-7. Investment purchases and redemptions of Govt Fund shares are transacted when Judicial Council Treasury staff review the account balance daily at 11:00 a.m. PST and invest or return funds as appropriate to maintain the bank account's established target balance. A purchase transaction takes place if the cash balance in the account exceeds the target balance, and a redemption transaction takes place when the cash balance is less than the target balance.

In accordance with the aforementioned Code of Federal Regulations, the Govt Fund must maintain a dollar-weighted average maturity consistent with its objective of maintaining a stable net asset value per share, not to exceed 60 days, and must contain only first-tier money market debt obligations receiving a short-term rating from a nationally recognized statistical rating organization in the highest short-term rating category for debt obligations. The Govt Fund is in the highest fund-rating category of AAAMmf by Fitch, Aaa-mf by Moody's, and AAAM by Standard & Poor's.

The Govt Fund invests only in high-quality money market instruments and invests at least 99.5 percent of its net assets in cash, U.S. Treasury bills, notes, and other obligations issued or guaranteed as to principal and interest by the U.S. Treasury and repurchase agreements secured

by such obligations or cash. The Govt Fund has also adopted a policy that provides, under normal circumstances, at least 80 percent of the fund's assets will be invested in obligations issued or guaranteed by the U.S. government and its agencies and instrumentalities and in repurchase agreements collateralized by such securities. As of June 30, 2023, the Govt Fund portfolio composition was as shown in table 3.

Table 3. Govt Fund Portfolio Composition as of June 30, 2023

High-Quality Instruments	Percentage of Portfolio
Repurchase agreements	79.21
U.S. government agency debt	12.50
U.S. Treasury debt	8.29

Included as Attachment B is the monthly fact sheet for the Morgan Stanley government fund institutional shares reported as of June 30, 2023.

T-Fund

Like the FedFund, the T-Fund is a money market fund registered with the SEC under the federal Investment Company Act of 1940 and operated in accordance with Commodity and Securities Exchanges, 17 Code of Federal Regulations part 270.2a-7. Investment purchases and redemptions of T-Fund shares are transacted when Judicial Council Treasury staff review the account balance daily at 11:00 a.m. PST and invest or return funds as appropriate to maintain the bank account's established target balance. A purchase transaction takes place if the cash balance in the account exceeds the target balance, and a redemption transaction takes place when the cash balance is less than the target balance.

In accordance with the aforementioned Code of Federal Regulations, the T-Fund must maintain a dollar-weighted average maturity consistent with its objective of maintaining a stable net asset value per share, not to exceed 60 days, and must contain only first-tier money market debt obligations receiving a short-term rating from a nationally recognized statistical rating organization in the highest short-term rating category for debt obligations. The T-Fund is in the highest fund-rating category of Aaa-mf by Moody's and AAAm by Standard & Poor's.

The T-Fund invests only in high-quality money market instruments and invests at least 99.5 percent of its net assets in cash, U.S. Treasury bills, notes, and other obligations issued or guaranteed as to principal and interest by the U.S. Treasury and repurchase agreements secured by such obligations or cash. As of June 30, 2023, the T-Fund portfolio composition was as shown in table 3.

Table 3. T-Fund Portfolio Composition as of June 30, 2023

High-Quality Instruments	Percentage of Portfolio
U.S. Treasury repurchase agreement	86.2
U.S. Treasury debt	13.8

Included as Attachment C is the monthly fact sheet for the BlackRock T-Fund institutional shares reported as of June 30, 2023.

LAIF

The LAIF is a money market fund held and managed by the State Treasurer's Office and is part of the Pooled Money Investment Account (PMIA). The PMIA is the short-term investment pool for the state General Fund; special funds held by state agencies; and monies deposited by cities, counties, and other entities into the LAIF. The LAIF is a voluntary program created by statute; it began in 1977 as an investment alternative for California's local governments and special districts. The enabling statute for the LAIF is Government Code section 16429.1 et seq.

By law, PMIA monies can be invested only in the following categories: U.S. government securities; securities of federally sponsored agencies; domestic corporate bonds; interest-bearing time deposits in California banks, savings and loan associations, and credit unions; prime-rated commercial paper; repurchase and reverse repurchase agreements; security loans; bankers' acceptances; negotiable certificates of deposit; and loans to various bond funds.

The LAIF's primary objectives are to maintain the safety of principal and provide daily liquidity. These objectives are met by investing in high credit-quality debt instruments, maintaining an average maturity between 120 days and 18 months, and providing daily availability of the entire invested balance. The LAIF's investment yield is consistent with these very conservative objectives.

The *PMIA/LAIF Performance Report*—including the portfolio's composition as of June 30, 2023, as reported by the State Treasurer's Office—is included as Attachment D. The State Treasurer's Office has not identified a money market fund suitable for benchmark comparison to the LAIF.

Fiscal Impact and Policy Implications

This report fulfills the quarterly reporting of investment activities requirement created by the Resolutions Regarding Investment Activities for the Trial Courts, approved by the Judicial Council on February 27, 2004. There is no fiscal impact.

BlackRock Liquidity Funds

FedFund (Institutional shares)

June 2023 Factsheet

Investment objective

FedFund seeks as high a level of current income as is consistent with liquidity and stability of principal.

Investment policy

FedFund invests at least 99.5% of its total assets in cash, U.S. Treasury bills, notes and other obligations issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities, and repurchase agreements secured by such obligations or cash.

Performance (30-day yield %)*,1

7-day SEC yield as of 6/30/23 was 4.99%².

* Sources: BlackRock, Inc. and JP Morgan.

The investment advisor and/or other service providers for the BlackRock FedFund (Institutional Shares) sometimes waive a portion of their fees or reimburse expenses to the Fund. When they do, operating expenses are reduced and total returns to shareholders in the Fund increase. These waivers and reimbursements can be discontinued at any time. Without such waivers and reimbursements, which were in effect for all or a portion of the period shown, the 7-day SEC yield would be 4.97%².

% Net total return³ (6/30/23)

Portfolio #	0081

[†] Expenses are as of the most current prospectus. Investment dividend expense, interest expense, acquired fund fees and expenses and certain other fund expenses are included in the Net. BlackRock may contractually agree to waive or reimburse certain fees and expenses until a specified date. Contractual waivers are terminable upon 90 days' notice by a majority of the fund's non-interested trustees or by a vote of the majority of the outstanding voting securities of the fund. The investment advisor and/or other service providers may also voluntarily agree to waive certain fees and expenses which can be discontinued at any time without notice. When waivers or reimbursements are in place, the operating expenses are reduced and total returns to the shareholder in the fund increase. Please see the prospectus for additional information.

Important Notes

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

This material is not intended to be relied upon as a forecast, research or investment advice, and is not a recommendation, offer or solicitation to buy or sell any securities or to adopt any investment fund strategy. The opinions expressed may change as subsequent conditions vary.

This material must be preceded or accompanied by a prospectus (<https://www.blackrock.com/cash/literature/prospectus/pro-brliquidity-institutionalshares-feb.pdf>).

¹ Average annualized 30-day SEC yields are based on net investment income excluding distributed gains or losses for the period shown. Past performance is no guarantee of future results. Yields will fluctuate as market conditions change. ² The 7-Day yield is computed in accordance with methods prescribed by the SEC. The 7-Day SEC yield excludes distributed capital gains/losses. ³ The fund's current yield more closely reflects the current earnings of the fund than the total net return quotations. ⁴ Weighted Average Maturity: Calculated by the final maturity for a security and the interest rate reset date held in the portfolio. This is a way to measure a fund's sensitivity to potential interest rate changes. ⁵ Weighted Average Life: Measurement of a fund's sensitivity to a deteriorating credit environment; potential credit spread changes or tightening liquidity conditions. The WAL calculation is based on a security's stated final maturity date or, when relevant, the date of the demand feature when the fund may receive payment of principal and interest. ⁶ BlackRock provides compensation in connection with obtaining or using third-party ratings and rankings. The Fund is currently rated by S&P and Moody's. Ratings by S&P and Moody's apply to the credit quality of a portfolio and are not a recommendation to buy, sell or hold securities of a Fund, are subject to change, and do not remove market risks associated with investments in the Fund. For complete information on the methodology used by each rating agency, please visit the following websites.

S&P - http://www.standardandpoors.com/en_US/web/guest/article/-/view/sourcelId/504352;

Moody's - https://www.moody.com/researchdocumentcontentpage.aspx?docid=PBC_79004.

All portfolio information provided is as of June 30, 2023 unless otherwise noted, and is subject to change.

Morgan Stanley Institutional Liquidity Funds Government Portfolio

Investment Objective

The Morgan Stanley Institutional Liquidity Funds (MSILF) Government Portfolio seeks preservation of capital, daily liquidity and maximum current income.

Investment Philosophy

We believe that a conservatively managed portfolio of liquid, high-quality debt securities issued by the U.S. government may maximize current income while preserving capital and liquidity.

Investment Process

The management team follows an investment process that seeks to select maturities based on the shape of the money market yield curve and on expectations as to future shifts in the level and shape of the curve, taking into consideration such factors as current short-term interest rates, Federal Reserve policy regarding interest rates and U.S. economic activity.

Fund Highlights

The MSILF Government Portfolio offers the following benefits:

Security: the fund is rated AAmmf by Fitch, AAAm by S&P, and Aaa-mf by Moody's, reflecting the credit quality, diversification and security of the fund.

Liquidity: competitive trading deadlines and same-day access give you flexibility and control.

Yield: provides a competitive rate of return.

Average Annualized Monthly Net Yield (%)

Redemption deadline	5 PM ET

Share Class

	CLASS IN
Inception date	08/09/2004
Ticker	MVRXX
CUSIP	61747C707
Net asset value (\$)	1.00
Dividends declared	Daily
Minimum initial investment (\$)	10,000,000
1-day liquidity (%)	77.12
7-day liquidity (%)	84.50
7-day current yield subsidized (%)	5.03
30-day effective yield subsidized (%)	5.12

Yields are subsidized. As of June 30, 2023, the fund's 7 day and 30 day unsubsidized yields were 4.95% and 5.06%, respectively, and its simple (7-day) yield, gross of all fee waivers and expense reimbursements, was 5.15%.

Yield quotations more closely reflect current earnings of the money market fund than total return quotations. Yields are subject to change.

Recent and any future declines in interest rate levels could cause these funds' earnings to fall below the funds' expense ratios, resulting in a negative yield.

DEFINITIONS

Unsubsidized yield The unsubsidized yield reflects what the yield would have been had a fee and/or expense waiver not been in place during the period shown. **Total return** A measure of a fund's performance that encompasses all elements of return: dividends, capital gain distributions, and changes in net asset value. Total return is the change in value of an investment over a given period, assuming reinvestment of any dividends and capital gain distributions, expressed as a percentage of the initial investment. **Weighted average life** measures the weighted average of the maturities of the portfolio's individual holdings. **Weighted average maturity** measures the weighted average of the maturities of the portfolio's individual holdings, taking into account reset dates for floating rate securities. **Yield definitions** The 7-day current yield is an annualized net yield which assumes dividends are not reinvested in the fund. The 30-day effective yields are annualized net yields that describe 1-year earnings assuming dividends are reinvested at the average rate of the last 30 days. The 7-day simple yield describes the annualized income earned over the last 7 days.

IMPORTANT RATINGS DISCLOSURES

Ratings represent the opinions of the rating agency as to the quality of the securities they rate. Standard & Poor's, Moody's, Fitch and NAIC ratings rate the investment quality of the fund's shares. Independent rating agency ratings include, but are not limited to, a regular analysis of a fund's liquidity, diversification, operational policies and internal controls, its management characteristics and the creditworthiness of its assets. Ratings are not intended as a recommendation and are subject to change. Ratings are relative and subjective and are not absolute standards of quality. The portfolio's credit quality does not remove market risk.

Fitch Ratings' money market fund ratings are an opinion as to the capacity of a money market fund to preserve principal and provide shareholder liquidity. Money market fund ratings are distinguished from the long-term credit-rating scale by the 'mmf' rating subscript and range from 'AAAmmf' to 'Bmmf'. For more information, please visit: http://www.fitchratings.com/creditdesk/public/ratings_definitions/index.cfm.

Standard & Poor's money market fund ratings are forward-looking opinions about a fixed-income fund's capacity to maintain stable principal (net asset value). When assigning a principal stability rating to a fund, Standard & Poor's analysis focuses primarily on the creditworthiness of the fund's investments and counterparties, and also its investments maturity structure and management's ability and policies to maintain the fund's stable net asset value. For more information, please visit: <http://www.understandingratings.com>.

Moody's Investors Services Inc's money market fund ratings are opinions of the investment quality of shares in mutual funds and similar investment vehicles which principally invest in short-term fixed income obligations. As such, these ratings incorporate Moody's assessment of a fund's published investment objectives and policies, the creditworthiness of the assets held by the fund, the liquidity profile of the fund's assets relative to the fund's investor base, the assets' susceptibility to market risk, as well as the management characteristics of the fund. For more information, please visit: http://v3.moody.com/researchdocumentcontentpage.aspx?docid=PBC_79004.

RISK CONSIDERATIONS

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the

Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Funds' sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

Market values can change daily due to economic and other events (e.g. natural disasters, health crises, terrorism, conflicts and social unrest) that affect markets, countries, companies or governments. It is difficult to predict the timing, duration, and potential adverse effects (e.g. portfolio liquidity) of events. The prices of fixed income securities respond to interest rate changes. Indeed, prices tend to be inversely affected by changes in interest rates. Accordingly, the portfolio is subject to interest rate risk, and in a rising interest rate environment, portfolio shares can decline in value.

OTHER CONSIDERATIONS

The information herein is a general communications which is not impartial and has been prepared solely for information and educational purposes and does not constitute an offer or a recommendation to buy or sell any particular security or to adopt any specific investment strategy. The material contained herein has not been based on a consideration of any individual client circumstances and is not investment advice, nor should it be construed in any way as tax, accounting, legal or regulatory advice. To that end, investors should seek independent legal and financial advice, including advice as to tax consequences, before making any investment decision.

Morgan Stanley Institutional Liquidity Funds (MSILFs) MSILFs are institutional mutual funds offering seven different cash management portfolios.

Fund adviser The Morgan Stanley Institutional Liquidity Funds (MSILFs) are managed by Morgan Stanley Investment Management, Inc.

MSILF returns are net of fees and assume the reinvestment of all dividends and income. Returns for less than one year are cumulative (unannualized). MSILF returns are reported for Institutional class shares. Performance for the other classes will differ. The Portfolio's "Adviser" and "Administrator," Morgan Stanley Investment Management Inc., has agreed to reduce its advisory fee, its administration fee and/or reimburse the Portfolio's Institutional Class so that Total Annual Portfolio Operating Expenses, excluding certain investment related expenses, taxes, interest and other extraordinary expenses (including litigation), will not exceed 0.20%. The fee waivers and/or expense reimbursements will continue for at least one year or until such time as the Board of Trustees of Morgan Stanley Institutional Liquidity Funds (the "Fund") acts to discontinue all or a portion of such waivers and/or reimbursements when it deems such action is appropriate.

This material must be preceded or accompanied by a prospectus for the Morgan Stanley Institutional Liquidity Funds. The prospectus contains information about the funds, including the investment objectives, risks, charges and expenses. For an additional copy of the prospectus, please visit www.morganstanley.com. Please read the prospectus carefully before investing. Morgan Stanley Distribution, Inc. serves as the distributor for Morgan Stanley Institutional Liquidity Funds.

BlackRock Liquidity Funds

T-Fund (Institutional shares)

June 2023 Factsheet

Investment objective

T-Fund seeks as high a level of current income as is consistent with liquidity and stability of principal.

Investment policy

T-Fund invests at least 99.5% of its total assets in cash, U.S. Treasury bills, notes and other obligations issued or guaranteed as to principal and interest by the U.S. Treasury, and repurchase agreements secured by such obligation or cash.

Performance (30-day yield %)*, 1

7-day SEC yield as of 6/30/23 was 4.98%².

* Sources: BlackRock, Inc. and JP Morgan.

The investment advisor and/or other service providers for the BlackRock T-Fund (Institutional Shares) sometimes waive a portion of their fees or reimburse expenses to the Fund. When they do, operating expenses are reduced and total returns to shareholders in the Fund increase. These waivers and reimbursements can be discontinued at any time. Without such waivers and reimbursements, which were in effect for all or a portion of the period shown, the 7-day SEC yield would be 4.97%².

% Net total return³ (6/30/23)

1 year	3 year	5 year	10 year	Since inception
3.68	1.28	1.45	0.90	2.79

This Fund fits an exemption from that rule which permits a state regulated insurance company to report shares of this fund as debt. Representatives of state regulated insurance companies should contact the NAIC's Securities Valuation Office for further information on the criteria for listing on the U.S. Direct Obligations/Full Faith and Credit Exempt List (<https://content.naic.org/sites/default/files/publication-mmfs-zs-money-market-fund-list.pdf>).

[†] Expenses are as of the most current prospectus. Investment dividend expense, interest expense, acquired fund fees and expenses and certain other fund expenses are included in the Net. BlackRock may contractually agree to waive or reimburse certain fees and expenses until a specified date. Contractual waivers are terminable upon 90 days' notice by a majority of the fund's non-interested trustees or by a vote of the majority of the outstanding voting securities of the fund. The investment advisor and/or other service providers may also voluntarily agree to waive certain fees and expenses which can be discontinued at any time without notice. When waivers or reimbursements are in place, the operating expenses are reduced and total returns to the shareholder in the fund increase. Please see the prospectus for additional information.

Asset allocation %[†]

[†] Does not reflect other receivables and payables.

Important Notes

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

This material is not intended to be relied upon as a forecast, research or investment advice, and is not a recommendation, offer or solicitation to buy or sell any securities or to adopt any investment fund strategy. The opinions expressed may change as subsequent conditions vary.

This material must be preceded or accompanied by a prospectus (<https://www.blackrock.com/cash/literature/prospectus/pro-brliquidity-institutionalshares-feb.pdf>).

¹ Average annualized 30-day SEC yields are based on net investment income excluding distributed gains or losses for the period shown. Past performance is no guarantee of future results. Yields will fluctuate as market conditions change. ² The 7-Day yield is computed in accordance with methods prescribed by the SEC. The 7-Day SEC yield excludes distributed capital gains/losses. ³ The fund's current yield more closely reflects the current earnings of the fund than the total net return quotations. ⁴ Weighted Average Maturity: Calculated by the final maturity for a security and the interest rate reset date held in the portfolio. This is a way to measure a fund's sensitivity to potential interest rate changes. ⁵ Weighted Average Life: Measurement of a fund's sensitivity to a deteriorating credit environment; potential credit spread changes or tightening liquidity conditions. The WAL calculation is based on a security's stated final maturity date or, when relevant, the date of the demand feature when the fund may receive payment of principal and interest. ⁶ BlackRock provides compensation in connection with obtaining or using third-party ratings and rankings. The Fund is currently rated by S&P and Moody's. Ratings by S&P and Moody's apply to the credit quality of a portfolio and are not a recommendation to buy, sell or hold securities of a Fund, are subject to change, and do not remove market risks associated with investments in the Fund. For complete information on the methodology used by each rating agency, please visit the following websites.

S&P - http://www.standardandpoors.com/en_US/web/guest/article/-/view/sourcelId/504352;

Moody's - https://www.moody.com/researchdocumentcontentpage.aspx?docid=PBC_79004.

January	2.425

Pooled Money Investment Account Monthly Portfolio Composition ⁽¹⁾ 06/30/23 \$178.4 billion

Chart does not include \$2,861,000.00 in mortgages, which equates to 0.002%. Percentages may not total 100% due to rounding.

Daily rates are now available here. [View PMIA Daily Rates](#)

Notes: The apportionment rate includes interest earned on the CalPERS Supplemental Pension Payment pursuant to Government Code 20825 (c)(1) and interest earned on the Wildfire Fund loan pursuant to Public Utility Code 3288 (a).

*The percentage of administrative cost equals the total administrative cost divided by the quarterly interest earnings. The law provides that administrative costs are not to exceed 5% of quarterly EARNINGS of the fund. However, if the 13-week Daily Treasury Bill Rate on the last day of the fiscal year is below 1%, then administrative costs shall not exceed 8% of quarterly EARNINGS of the fund for the subsequent fiscal year.
