Title
Judicial Branch Operations: Disaster Recovery Framework Guide (Action Required)

Summary

The Information Technology Advisory Committee (ITAC) Disaster Recovery Framework Workstream team, with approval from the Judicial Council Technology Committee, recommends approving the proposed disaster recovery plan to help any judicial branch entity (JBE) that chooses to use it with the various processes necessary to plan and implement a disaster recovery strategy at a desired pace.

Recommendation

The Information Technology Advisory Committee, with the approval of the Judicial Council Technology Committee, recommends that the Judicial Council, effective March 2, 2018:

1. Approve the *Disaster Recovery Framework: Recommendations & Reference Guide for the California Judicial Branch*, model template, and how-to guide, and authorize the final documents to be published on the Judicial Resources Network for use by courts; and
2. Direct ITAC to prepare a budget change proposal (BCP) requesting funding to assist courts with adopting the framework, and help ensure implementation of successful and reliable disaster recovery software/hardware and solutions across the branch.

Speakers

Hon. Sheila F. Hanson, Chair, Information Technology Advisory Committee
