Executive Summary

Pursuant to Statutes 2018, Chapter 449, the Judicial Council is required to allocate \$15 million from the Trial Court Trust Fund to support start-up activities associated with implementation of pretrial reform.

If the funding provided for in SB 862 is not allocated for expenditure to support start-up activities associated with implementation of pretrial reform, the state will not be able to initiate the necessary work related to these reforms.

Recommendation

Judicial Council staff recommend that the Judicial Council allocate \$15 million from the Trial Court Trust Fund to support start-up activities associated with implementation of pretrial reform, as follows:

1. \$7.95 million for county probation departments;
2. \$4.45 million for Court Case Management System/Pretrial Assessment Information integration;
3. \$1.6 million to trial courts as “seed” money for implementation;
4. \$930,000 for Judicial Council implementation staff; and
5. \$70,000 for travel, trainings, and expert panel costs.

Relevant Previous Council Action

None.

Recommendation

Pursuant to Statutes 2018, Chapter 449 (Sen. Bill 862), the Judicial Council is required to allocate \$15 million from the Trial Court Trust Fund to support start-up activities associated with implementation of pretrial reform.

Item 0250-101-0932, Provision 20:

Notwithstanding any other law, and subject to the passage of pre-trial reform legislation, the Judicial Council shall allocate up to \$15,000,000, in the 2018–19 fiscal year, to support start-up activities associated with implementation of pre-trial reform, including development of protocols and rules of court, training, administrative activities, and other necessary activities. These funds shall be reimbursed from a General Fund appropriation provided for this purpose in the Budget Act of 2019. Upon approval of the Administrative Director, the Controller shall transfer an amount determined by the Administrative Director to Item 0250-001-0932 to facilitate funding of the start-up activities. It is estimated that implementation of the pre-trial reform legislation will have an annual cost of \$200,000,000, as reflected in the most recent longer-term state spending plan.

Consistent with discussions with the Department of Finance and the Chief Probation Officers of California (CPOC), these funds are recommended to be allocated as outlined below:

1. \$7.95 million—County probation departments to support planning and implementation activities associated with providing pretrial assessment services based on the following formula:
 - \$100,000 to each county with a population of 0 to 200,000, inclusive;
 - \$150,000 to each county with a population of 200,001 to 749,999, inclusive; and

- \$200,000 to each county with a population of 750,000 and above.

See Table 1 below for a listing of the distribution by county.

2. \$4.45 million—Court Case Management System/Pretrial Assessment Information integration.

The Judicial Council will integrate the court case management systems (CMSs) with pretrial risk assessment programs. The pretrial assessment agencies will log scores and data related to the major risk assessment tools in the system and the data will be sent directly to the courts' CMSs and statewide data warehouse. This will allow the judicial branch to track risk-level outcomes at the individual level and will serve as a data repository to fulfill the data reporting requirements of pretrial reform.

Because many of the courts are changing to new CMSs, the full statewide integration with CMSs will take several years to complete; however the application with the ability to house risk assessment data should be available in late 2019.

3. \$1.6 million—Initial funding/seed money for courts for immediate implementation needs.

Courts will be provided initial implementation funding to begin their work associated with pretrial reform. Appropriate uses of the funds include contracting with subject matter experts for technical assistance, in-state travel, or other costs associated with pretrial reform implementation. Additional funding will be sought in the 2019–20 budget for identified needs and other start-up costs.

See Table 1 below for a listing of the distribution by trial court.

Distribution of the \$1.6 million to trial courts will be based on the following formula:

- \$20,172 to each county with a population of 0 to 200,000, inclusive;
- \$30,172 to each county with a population of 200,001 to 749,999, inclusive; and
- \$40,172 to each county with a population of 750,000 and above.

4. \$930,000—Judicial Council staff to support the work associated with statewide mandates.

Examples of Judicial Council staff duties include assisting with drafting rules of court; providing legal advice; coordinating trainings and technical assistance; compiling and maintaining a list of validated risk assessment tools; conducting duties associated with data collection and report writing; and designing, developing, implementing, maintaining, and supporting the technology integration. These are ongoing costs that the council will seek funding for in the 2019–20 budget.

5. \$70,000—Travel, trainings, and expert panel costs.

The Judicial Council is required to provide judicial education and coordinate training efforts with the CPOC. The council and the CPOC will host three or four regional trainings throughout the state in January and February 2019. The trainings will bring together courts with local justice system partners and other stakeholders. Other training opportunities will also be made available, including webinars and local court presentations, as requested. Finally, the Chief Justice will convene an expert panel related to risk assessment scores. Some of these funds will be used for costs associated with those duties.

Comments, Alternatives Considered, and Policy Implications

The recommendations contained in this report were presented as information to the Trial Court Budget Advisory Committee on October 11, 2018. Given the discussions with the Department of Finance and the Chief Probation Officers of California about the funding and agreement on the allocation of the funding, no alternatives were considered.

Implementation Requirements, Costs, and Operational Impacts

If the funding provided for in SB 862 is not allocated for expenditure to support start-up activities associated with implementation of pretrial reform, the state will not be able to initiate the necessary work related to these reforms.
