Executive Summary

Government Code section 68604 requires the Judicial Council to report biennially regarding the standards of timely disposition adopted pursuant to section 68603. On September 18, 2023, Judicial Council staff will submit to the Legislature the already-published report *2023 Court Statistics Report*, which contains case-processing and time-to-disposition statistics that meet the reporting requirements of Government Code section 68604.

Relevant Previous Council Action

Judicial Council staff has submitted the *Court Statistics Report* to meet this reporting mandate for many years. However, until 2013, these reports were not approved by the Judicial Council because protocol at that time did not require council action on reports that did not include recommendations.

Starting in 2013, staff have transmitted this legislative report under the direction of the Judicial Council. Even though the *Court Statistics Report* is published on an annual basis, council action to meet the reporting mandate pursuant to Government Code section 68604 is only required every other year.

Analysis/Rationale

The statewide caseload data for fiscal year 2021–22 exhibits a similar pattern to the previous year (FY 2020–21). Filings in case types of misdemeanor traffic/nontraffic, civil limited, small claims, family law, and juvenile remain below the usual range observed before the COVID-19 pandemic. On the other hand, case types of felony, unlawful detainer, conservatorship, and guardianship have returned to the pre-pandemic range.

Fiscal Impact and Policy Implications

The submission of this report to the Legislature carries no additional implementation requirements or costs for the courts. This report is legislatively mandated, so no alternatives were considered, and comments were not sought.

INTRODUCTION

Court Statistics Report

The *Court Statistics Report* is published annually by the Judicial Council of California and is designed to fulfill the provisions of article VI, section 6 of the California Constitution, which requires the Judicial Council to survey the condition and business of the California courts. The *Court Statistics Report* combines 10-year statewide summaries of superior court filings and dispositions with similar workload indicators for the California Supreme Court and Courts of Appeal. The *2023 Court Statistics Report* also provides more detailed information on filings and dispositions in the individual superior courts for the most recent fiscal year for which data are available, 2021–22.

The California Court System

California’s court system serves a population of more than 39 million people—about 12 percent of the total U.S. population—and processed over 4.5 million cases in fiscal year (FY) 2021–22. The judicial branch budget for the 2021–22 fiscal year of \$4.8 billion (excluding infrastructure) represents about 1.8 percent of the California state budget and makes possible the case-processing activity detailed below while also providing the basis of support for approximately 2,000 judicial officers and just over 18,000 judicial branch employees statewide.

The vast majority of cases in the California courts begin in the superior (or trial) court. Each of the state’s 58 counties has a superior court, and California’s superior court system includes over 450 court buildings throughout the state. These courts hear both civil and criminal cases as well as family, probate, mental health, and juvenile cases. The equivalent of more than 2,000 judicial officers statewide address the full range of cases heard each year by the superior courts, as reflected in the sheer number of case filings and dispositions reported here. The superior courts report summaries of their case filing count to the Judicial Council, and the *Court Statistics Report* presents those figures here in aggregate form.

The next level of court authority within the state’s judicial branch resides with the Courts of Appeal. Most of the cases that come before the Courts of Appeal involve the review of a superior court decision that is being contested by a party to the case. The California Legislature has divided the state geographically into six appellate districts, each containing a Court of Appeal. Currently, 106 appellate justices preside in nine locations in the state to hear matters brought for review. Totals of Court of Appeal case filings are forwarded to the Judicial Council; these are summarized in the tables that follow.

The Supreme Court sits at the apex of the state’s judicial system and has discretion to review decisions of the Courts of Appeal in order to settle important questions of law and resolve conflicts among the Courts of Appeal. Although the Supreme Court generally has considerable discretion in determining which cases to grant review, it must review the appeal in any case in which a trial court has imposed the death penalty. The Supreme Court sends the Judicial Council its annual case filing figures, which are reported here in summary form.

Caseload Data and Court Workload

The *Court Statistics Report* contains essential information about the annual caseload of the California judicial branch, with a particular emphasis on the number and types of cases that are filed and disposed of in the courts. This information is submitted to the California Legislature and used in numerous judicial branch reports. As with any published data, the numbers in this report represent a snapshot of the most complete and reliable information available at the time of compilation. Statewide trends in filings and dispositions may be influenced by a number of factors. For example, changes in the number of filings and dispositions may reflect

the shifting needs or behavior of residents of a court's service area as well as new policy emphases in the work of justice system partners. The following are some of the more common causes of statistical variations.

Amended Data

To ensure that the statistics used for making policy decisions are as accurate as possible, courts may amend the data they submit to the Judicial Council should new, more detailed, or more complete information become available. For this reason, the data in this report may change slightly over time as courts revise their calculations and submit new caseload estimates. Some FY 2020-21 historical data reported in the current Court Statistics Report has been updated and may be different than what was published in the previous year's report. The Judicial Council continuously validates and improves its data reporting processes, while courts regularly review and amend data to improve the quality of data reporting.

Missing Data

Statewide totals in the *Court Statistics Report* may be influenced by missing data for certain courts. Typically, when courts do not report data to the Judicial Council, it is because they have encountered difficulties generating automated reports from their case management systems. Filings data submitted by the courts tend to be more complete than disposition data.

Incomplete Data

The reporting of incomplete data typically occurs when courts transmit partial data totals for a particular case type because of the limits of their case management systems. It should be noted that incomplete data are more difficult to spot in the tables that follow, but in general they will cause downward shifts in the number of filings and dispositions. (Incomplete data for FY 2021–22 is also detailed in Appendix A.)

Variation in Local Business Practices

Data reported in the *Court Statistics Report* are compiled in a data warehouse, the Judicial Branch Statistical Information System (JBSIS). Because many different case management systems are used in the courts, data must be "mapped" from local systems into the standard categories used for reporting purposes. One essential function of JBSIS is to standardize the basic definitions of case types and case events across all courts in California. Another important aspect of JBSIS is its role in the extraction of court data through different transmission methods, including web-based reports through the JBSIS Portal and automated JBSIS reports. Through this process, JBSIS contributes to the warehousing of this data in a structure that is comparable from one court to another.

Maintaining quality control over the data contained in the JBSIS data warehouse involves:

- Training court staff on the standards for the classification, entry, and reporting of data.
- Providing information to the courts for resolving technical questions associated with data definitions, processing, and aggregation.
- Developing and adopting a new case management system infrastructure in the courts; and
- Documenting and disseminating information related to changes in the ways that courts define or report data.

Although a growing number of courts now transmit their data electronically from their case management system to the Judicial Council, there continue to be differences among superior courts' case processing and other business practices that reflect the histories of individual courts and the unique needs of the communities they serve. These differences may influence the ways in which superior courts report data to the Judicial Council. On that basis, although the filings and disposition data reported by any one court are largely comparable to data from other courts, some local variations in the classification and reporting of cases still occur.

Summary of 2023 Court Statistics Report

Caseload data for the California Supreme Court, Courts of Appeal, and superior courts for fiscal year 2021–22 is summarized below.

Supreme Court

- The Supreme Court issued 49 written opinions.
- Filings totaled 5,665, and dispositions totaled 5,778.
- There were 4 automatic appeals arising out of judgments of death, and the court disposed of 16 such appeals by written opinion.
- The Supreme Court ordered 19 Court of Appeal opinions depublished.

Courts of Appeal

- Contested matters in the Courts of Appeal totaled 16,308, including 10,464 records of appeal and 5,844 original proceedings.
- Dispositions in the Courts of Appeal totaled 20,117. Of these dispositions, 14,168 were appeals and 5,949 were original proceedings.
- Dispositions of appeals by written opinion totaled 8,306, appeals disposed of without written opinion totaled 3,494, and appeals disposed of without a record filed totaled 2,368. Dispositions of original proceedings by written opinion totaled 325, and original proceedings disposed of without written opinion totaled 5,624.
- Statewide, 10 percent of Court of Appeal majority opinions were published.

Superior Courts

In FY 2021–22, over 4.4 million cases were filed statewide in the superior courts. The *Court Statistics Report* organizes all the cases filed in the courts into four main case categories: Civil; Criminal; Family and Juvenile; and Probate, Mental Health, Appeals, and Habeas. The case filing totals for the individual case types reported by the courts for FY 2021–22 are as follows:

Civil: The civil case category is made up of unlimited civil, limited civil, and small claims matters. Civil unlimited cases are matters in which the petitioner is seeking more than \$25,000. There were 221,761 unlimited civil cases filed in the courts. Limited civil filings are cases in which the petitioner is seeking \$25,000 or less. Limited civil cases totaled 362,607 statewide. Small claims filings are cases in which the petitioner is seeking \$10,000 or less and is not represented by counsel. A total of 66,821 small claims cases were filed statewide.

Criminal: The criminal case category is made up of felonies, misdemeanors, and infractions. Felony filings represented 180,547 cases, misdemeanor filings totaled 450,415 cases, and infraction filings accounted for 2,604,823 cases.

Family and Juvenile: Marital filings (dissolutions, legal separations, and nullities) accounted for 114,765 cases, and other family law filings (e.g., paternity, child support) totaled 195,856 cases. Juvenile delinquency filings totaled 20,853 cases, and juvenile dependency filings totaled 33,953 cases.

Probate, Mental Health, Appeals, and Habeas: Probate filings totaled 57,836 cases, mental health filings totaled 89,578 cases, civil and criminal appeal filings totaled 1,921 cases, and criminal habeas corpus filings totaled 5,438 cases.

The largest changes in statewide filings for superior courts over the past year are mostly driven by infractions and misdemeanors in the criminal case category, and juvenile dependency cases. Filings increased from the

previous year in small claims, probate, felony, marital, mental health, civil limited, and juvenile delinquency filings.

Terminology and Rules for Counting Filings

Technical definitions of most terms used in this *Court Statistics Report* can be found in the appendixes. Some core definitions are presented here in more detail.

Appellate Courts

APPEAL. An *appeal* is a proceeding undertaken to have a decision of a lower trial court reviewed by a court with appellate authority over the matter. (Certain limited matters are reviewed by the appellate department of the superior courts.) A *notice of appeal* is a written notification filed in the superior court to initiate the appeal of a judgment to the Court of Appeal. The Courts of Appeal have appellate jurisdiction in all trial court matters, except when a judgment of death is entered, in which case the California Supreme Court has appellate jurisdiction. If the matter is appealable, the court must hear the appeal. A *fully briefed* appeal is one in which all briefs have been filed with the court. *Dismissal* of an appeal involves the termination of a case for reasons other than its merit. An appeal that is awaiting a final decision is said to be *pending*. Each notice of appeal is counted as one new filing.

PETITION FOR REVIEW. A *petition for review* is filed in the California Supreme Court to ask that court to exercise its discretion to review a decision issued by a Court of Appeal in an appeal or an original proceeding. The Supreme Court has a total of 90 days to consider a petition for review, after which it loses jurisdiction. If a petition for review is granted by the Supreme Court, then full briefing occurs on the case; if a petition is denied, then the judgment of the lower court becomes final as to the case.

AUTOMATIC APPEAL. An *automatic appeal* is the appeal following a judgment of death in the trial court. This type of appeal is unique because it moves directly from a superior court to the Supreme Court without first being reviewed by a Court of Appeal. Like other types of appeals, it is fully briefed before being heard. An automatic appeal is counted as one new filing.

ORIGINAL PROCEEDING. An *original proceeding* is an action that may be filed and heard for the first time in an appellate court. This action is not an appeal; rather, it is ordinarily a petition for a writ. Examples of original proceedings include a writ of mandamus, which instructs a lower court to perform mandatory duties correctly; a writ of prohibition, or an order that forbids certain actions; and a writ of habeas corpus, which is described below. Each original proceeding is counted as one new filing.

PETITION FOR A WRIT OF HABEAS CORPUS. A petition for the issuance of a *writ of habeas corpus* is typically filed to contest the legality of a party's imprisonment or conditions of confinement. Each habeas corpus petition is counted as one new filing.

WRITTEN OPINION. A written opinion is a document issued by an appellate court explaining the terms and reasoning in its disposition of a case. The written opinion includes a statement of the legal facts in the case, relevant points of law, and the court's analysis and rationale for its decision. In addition to the written majority opinion in a case, concurring and dissenting opinions also may be filed in each case. For each case, only the majority opinion is counted as a written opinion in these tables.

DISPOSITIONS. The appellate court may dispose of a case by affirming or reversing the action of the lower court, or it may send the case back to the lower court for further proceedings if appropriate.

RECORD OF APPEAL. A record of appeal is the compilation of documents and transcripts associated with a given superior court case under review by an appellate court. The record is a component of a new appellate case and as such is not counted separately from the initial appeal.

REVERSAL OF CASE DECISION. A reversal is the overturning of a lower court's decision by an appellate court.

Superior Courts

FILING. In the most general sense, a *filing* is the initiation of a legal action with the court through a carefully prescribed legal procedure.

How Filings Are Counted. The procedure used to count filings for this report follows a set of rules consistent with national standards for statistical reporting. These rules differ according to case type:

- Each filing in a *civil* case pertains to the complaint or petition that has been submitted to the court for action. A given civil complaint may name one or more individuals or groups as its object. However, regardless of the number of parties named in a case, each civil case is reported as one filing or one disposition.
- Each filing in a *criminal* case is associated with a single defendant against whom criminal charges have been filed. Multiple criminal charges may occur in a case in which different charges have been brought against the same defendant, but only the single most severe charge against a defendant in a given case is counted as a new criminal filing. When multiple defendants are charged with a crime, multiple filings are reported.
- Each filing in a *juvenile* case pertains to a minor who is the subject of a petition made to the court for adjudication. A minor may have an initial filing that brought the minor to the attention of the court, and subsequent filings if new petitions or charges are filed over time. This practice continues until termination of the dependency or delinquency jurisdiction by the court or when the minor has reached the legal definition of adulthood. In a single case involving multiple minors, each minor is counted as a separate filing.

DISPOSITION. In a general sense, a *disposition* may be described as a final settlement or determination in a case. A disposition may occur either before or after a civil or criminal case has been scheduled for trial. A final judgment, a dismissal of a case, and the sentencing of a criminal defendant are all examples of dispositions. In certain case types, however, a disposition may merely signal the beginning of the court's authority over a case. For example, after the petition to appoint a conservator is disposed of in conservatorship cases, the court assumes control over that case. Rules for counting and reporting dispositions mirror those for filings, although a case filed in one year may be disposed of by the court in a subsequent year.

Const., art VI, § 14), orders not published in the Official Reports, and that may be cited or relied upon only in limited circumstances (see Cal. Rules of Court, rule 8.1115(b)). For information on the total number of published and unpublished opinions issued by the Courts of Appeal, see Table 7 and Figures 28-32 in the Courts of Appeal section.

- (C) Appeals argued, calendared, or ready as of June 30, 2022.
- (D) The total number of appeals that became fully briefed during fiscal year 2021–22.
- (E) Appeals disposed of by opinion during fiscal year 2021-22. Includes appeals filed prior to fiscal year 2021–22.

Figure 1: Ratio of Pending Fully Briefed Appeals per 100 Appeals Disposed of by Written Opinion

This ratio is a measure of pending workload as well as judicial productivity and is an estimate of the time a court needs to dispose of pending fully briefed appeals. A ratio of 100 is equivalent to one year, 50 is equivalent to six months, and so forth. The estimate is based on the assumption that the court will decide the same number of appeals in the next fiscal year as in 2021–22.

The Third District had 22 pending fully briefed appeals per 100 appeals disposed of by opinion in 2021–22, the lowest ratio among the six appellate districts.

The Sixth District had 58 pending fully briefed appeals per 100 appeals disposed of by opinion, the highest ratio among the six appellate districts.

The statewide average decreased from 37 in 2020–21 to 31 in 2021–22.

Figure 2: Pending Fully Briefed Appeals per Authorized Justice as of June 30, 2022

The Sixth District reported the highest number of pending fully briefed appeals per authorized justice, 34.

The First District reported the lowest number of pending fully briefed appeals per authorized justice, 17.

The statewide average decreased from 32 in 2020–21 to 25 in 2021–22.

Figure 3: Majority Opinions per Judge Equivalent

“Judge equivalent” refers to the number of authorized justices adjusted for judicial vacancies, assistance given to other courts, and judicial assistance received.

The statewide average opinions per judge equivalent was 87 in 2021–22, compared to 82 in 2020–21.

The Third District reported the highest rate, 127 opinions per judge equivalent—54.4 percent higher than the statewide average.

The First District reported the lowest opinion rate, 59 per judge equivalent.

Beyond an optimum number of opinions (not yet identified), high rates of disposition indicate overload and a need for additional justices.

Figure 4: Pending Appeals: Caseload Comparison per Authorized Justice

Depicts the change in courts' inventories of appeals per authorized justice by showing pending cases as of June 30, 2021, and pending cases as of June 30, 2022.

The Third District had the highest level of pending appeals per justice as of June 30, 2022—6.8 percent higher than the statewide average.

The statewide average of pending appeals per justice was 117 as of June 30, 2022, and 116 as of June 30, 2021—a increase of 0.8 percent.

Figure 5: Filings and Dispositions: Caseload Comparison per Authorized Justice

The number of filings and dispositions relates to a court's pending caseload; disposing fewer cases than were filed in a time period would add to the number of pending cases and court backlog.

The Second District had the highest levels of filings per justice in 2021-2022. Filings per justice in the Second District were 38 percent higher than the statewide average. The Second District also had the highest levels of dispositions per justice in 2021–22. Dispositions per justice in the Second District were 17.1 percent higher than the statewide average.

The First District had the lowest levels of filings and dispositions per justice.

*Beginning July 1, 2014, "After Notice" was added as a category to the section for "Total Original Proceedings Disposed of." These are cases that were disposed of after an "Alternative Writ has Issued," a "Palma Notice or Letter Sent/issued," or an "OSC. This column includes cases in which the matter was resolved because the superior court complied with an alternative writ or suggestive Palma order (Palma v. U.S. Industrial Fasteners, Inc. (1984) 36 Cal.3d 171 (Palma)) that was issued by the Court of Appeal, thereby providing the petitioner the relief requested. The superior court may elect to comply with a Palma order or alternative writ if it first affords the parties notice and an opportunity to be heard. (See Brown, Winfield & Canzoneri, Inc. v. Superior Court (2010) 47 Cal.4th 1233, 1250-1251 & fn. 10.)

Definition of Terms

Assessed Judge Need (AJN): Represents the estimated number of judicial officers needed to handle the workload in the trial courts based on the Judicial Needs Assessment. The Judicial Needs Assessment was approved by the Judicial Council in 2001 as the methodology for evaluating judicial workload and the need for new judgeships. In 2004, the Judicial Council approved a minor change in the assessment methodology that uses a 3-year average filings data instead of using a single year. The AJN numbers are updated on a 2-year cycle in even-numbered years. The most recent update of the Judicial Needs Assessment was completed in 2020.

Judicial Position Equivalents (JPE): Reflects authorized judicial positions adjusted for vacancies, assistance rendered by the court, and assistance received by the court from assigned judges, temporary judges, commissioners, and referees.

Authorized Judicial Positions (AJP): Number of authorized judgeships, commissioners, and referees.

Authorized Judgeships: Number of judgeships authorized in statute.

Judicial Assistance Received by Trial Courts: Includes only assistance rendered by judges through assignments. Does not include assistance rendered by commissioners, referees, and temporary judges (these are included in JPE).

APPENDIX B

Supreme Court Glossary

The definitions in this glossary are intended only to provide context and a general understanding of the information in this publication. They are not to be relied on as legal authority or cited as authoritative.

attorney disciplinary proceedings Proceedings concerning possible suspension, disbarment, and public or private reproof of attorneys for alleged violations of law or rules of professional conduct. Other State Bar filings include requests for approval of rule proposals, motions for the admission of attorneys, reports of criminal convictions and other administrative matters relating to the admission and discipline of attorneys. Most matters are resolved by the entry of an order in the Supreme Court adopting the recommendation of the State Bar Court. Requests for approval of a rule may be resolved by an order adopting or denying the request, or a retransfer of the matter to the State Bar, all undertaken by the Court acting at its weekly conference. If the Supreme Court grants review of an attorney disciplinary proceeding, the matter will be handling in the same manner as any case in which review has been granted. The California Rules of Court govern petitions for review of disciplinary matters by the respondent attorney and the State Bar's Office of Chief Trial Counsel. In addition, the Supreme Court may, on its own motion, grant review or return a matter to the State Bar Court for reconsideration.

automatic appeal A criminal appeal by operation of law, directly from a Superior Court to the Supreme Court, upon imposition of a judgment of death.

civil Pertaining to an appeal or original proceeding in a case that is neither a criminal nor a juvenile delinquency case.

criminal Pertaining to an appeal or original proceeding in a case charging the violation of criminal law.

depublished opinion A Court of Appeal opinion that the Court of Appeal has certified for publication but that the Supreme Court, acting under its constitutional power over opinion publication, directs the Reporter of Decisions not to publish in the *Official Reports*, and that may be cited or relied upon only in limited circumstances (see Cal. Rules of Court, rule 8.1115(b)).

original proceedings Petitions for writs within the Supreme Court's original jurisdiction. The most common types are mandamus and prohibition, which may relate to either civil or criminal matters, and habeas corpus.

petition for review A request for Supreme Court review of a Court of Appeal decision.

petition for review denied An order by the Supreme Court declining review of a Court of Appeal decision.

petition for review granted An order by the Supreme Court granting review of a Court of Appeal decision.

petition for review granted and held An order by the Supreme Court granting review of a Court of Appeal decision that will be held for final action until a lead case addressing a related issue has been decided by the Supreme Court.

petition for review granted and transferred An order by the Supreme Court granting review of a Court of Appeal summary denial in an original proceeding and transferring review of the case to a Court of Appeal for further proceedings.

request for publication or depublishation A case in which the sole relief requested is for the Supreme Court to order that a Court of Appeal decision be either published or depublished.

written opinion The written decision, with reasons stated, that describes and explains the outcome of a Supreme Court case.

APPENDIX C

Courts of Appeal Glossary

The definitions in this glossary are intended only to provide context and a general understanding of the information in this publication. They are not to be relied on as legal authority or cited as authoritative.

appeal A proceeding for direct review of a judgment of an appealable order of a trial court. Excludes collateral review by means of an original proceeding. (See “civil appeal” and “criminal appeal.”)

civil appeal An appeal in a case that is neither a criminal nor a juvenile delinquency case.

civil original proceeding Any original proceeding in which the underlying case is not related to a violation of criminal law.

Court of Appeal The California court that hears (1) appeals in all noncapital cases in which a Superior Court has original jurisdiction and (2) appeals under other special circumstances, as prescribed by law.

criminal appeal An appeal from the judgment or order in a case charging a violation of criminal law.

criminal original proceeding Any original proceeding in which the underlying case is related to a violation of criminal law.

disposition Termination of an appeal or original proceeding. Court of Appeal dispositions are either by written opinion or without opinion (with or without a record filed).

fully briefed appeal A pending appeal in which all briefs have been filed.

median time In a listing where time values are placed in order from shortest to longest, the value with half of the cases above it and half below it.

90th percentile time In a listing where time values are placed in order from shortest to longest, the value with 10 percent of the cases above it and 90 percent below it.

notice filed The filing of a notice of appeal in the Superior Court, initiating the appellate process.

original proceedings Cases begun in an appellate court, commonly called writ proceedings. The most common are writs of mandamus and prohibition, usually seeking an order addressed to a lower court, and writs of habeas corpus, usually addressed to a person holding another in official custody. (See “civil original proceeding” and “criminal original proceeding.”)

palma notice Cases disposed of after an Alternative Writ was Issued, a Palma Notice or Letter Sent/Issued, or an Order to Show Cause. Includes cases in which the matter was resolved because the Superior Court complied with an alternative writ or suggestive Palma order that was issued by the Court of Appeal, thereby providing the petitioner the relief requested. The Superior Court may elect to comply with a Palma order or alternative writ if it first affords the parties notice and an opportunity to be heard.

pending appeal An appeal awaiting decision.

record filed The filing of the trial court clerk’s transcript (copies of documents filed in the case) and the reporter’s transcript (the typed version of oral proceedings).

This change eliminated the double counting of defendants who were held to answer, certified on guilty pleas, or waived preliminary hearings, and it reduced the numbers of filings and dispositions reported.
- (F) Includes parking appeals, a new data field collected as of FY18–19.

- (A) $B + C$.
- (B) Of the 50 new judgeships authorized by Assembly Bill 159, effective January 2008, 23 are still unfunded and are included in column B.
- (C) $D + E$. Total may not match exactly due to rounding caused by part-time commissioner and referee positions.
- (F) Judicial positions include court commissioners and referees in addition to the number of judges authorized for the court. Of the 50 new judgeships authorized by Assembly Bill 159, effective January 2008, 23 positions are still unfunded and unallocated as of Jun 30, 2022—two judicial positions were funded and allocated in 2018; and an additional 25 positions were funded and allocated in 2019—and are included in the statewide total but not shown in individual courts as in previous versions of the Court Statistics Report.
- (G) Assessed Judge Need (AJN): Represents the estimated number of judicial officers needed to handle the workload in the trial courts based on the Judicial Needs Assessment. The Judicial Needs Assessment was approved by the Judicial Council in 2001 as the methodology for evaluating judicial workload and the need for new judgeships. In 2004, the Judicial Council approved a minor change in the assessment methodology that uses a 3-year average filings data instead of using a single year. The AJN numbers are updated on a 2-year cycle in even-numbered years. The most recent update of the Judicial Needs Assessment was completed in 2020.

This change eliminated double-counting of defendants who were held to answer, certified on guilty pleas, or waived preliminary hearings, and it reduced the numbers of filings and dispositions reported.
- (C)–(F) This column also includes miscellaneous felony petitions. Ability to report miscellaneous felony petitions expanded to all counties as of FY18–19.
- (F) Includes parking appeals, a new data field collected as of FY18–19.

Notes:

- 0 or — The court reported that no cases occurred or the court did not submit a report in this category.
- (i) The court reported incomplete data in this category.

Column Key:

- (C)–(G) The purpose of this table is to provide a general summary of broad categories of dispositions in criminal proceedings and is not an exhaustive list of all possible dispositions in individual criminal cases. The table categorizes dismissals and acquittals together. The table does not specify the types or reasons for dismissal or acquittal, nor does it include other outcomes such as diversion programs, deferred entries of judgment, or dismissals resulting from pursuit of supervision revocations in lieu of formal convictions.
