---

### **Executive Summary**

The Trial Court Facility Modification Advisory Committee has completed allocating facility modification funding for fiscal year (FY) 2017–18 and submits its *Annual Report of the Trial Court Facility Modification Advisory Committee for Fiscal Year 2017–18* for informational purposes.

### **Relevant Previous Council Action**

This report, summarizing the activities of the Trial Court Facility Modification Advisory Committee (TCFMAC) during the preceding fiscal year, is submitted annually as required by the council’s *Trial Court Facility Modifications Policy* (see Link A). On November 17, 2017, the council received the *Annual Report of the Trial Court Facility Modification Advisory Committee for Fiscal Year 2016–17* (see Link B).

### **Analysis/Rationale**

Funding decisions during FY 2017–18 were based on the prioritization and ranking methodologies of the *Trial Court Facility Modifications Policy* (see Link A) as well as the Judicial Council’s *Court-Funded Facilities Request Policy* (see Link C).

## **Fiscal Impact and Policy Implications**

In FY 2017–18, the Facility Modification Program budget was authorized for \$65 million and was applied by the TCFMAC to the following priorities:

- \$38.9 million was the Judicial Council’s share for 1,195 Priority 1, 2, and 3 facility modification projects (see Attachment A, for definitions of these facility modification categories). These projects were funded as follows:
  - \$6.2 million was spent on 285 Priority 1 projects;
  - \$26.7 million was spent on 861 planned and unplanned Priority 2 projects; and
  - \$6.1 million was spent on 49 Priority 3 energy-efficiency projects;
- \$19.8 million was for secondary project phases and cost increases;
- \$5.6 million supported statewide facility modification planning (i.e., project management functions and preliminary project planning and estimating); and
- Approximately \$595,000 to cover the judicial branch’s share of costs for county-managed emergency projects.

# Annual Report of the Trial Court Facility Modification Advisory Committee for Fiscal Year 2017–18

---

NOVEMBER 30, 2018

JUDICIAL COUNCIL  
OF CALIFORNIA

---

TRIAL COURT FACILITY MODIFICATION  
ADVISORY COMMITTEE

## Executive Summary

This annual report for fiscal year (FY) 2017–18 provides an overview of the activities of the Trial Court Facility Modification Advisory Committee (TCFMAC), including project authorizations, ongoing facility assessments, and funding concerns.

The TCFMAC reviews and approves facility modification requests from across the state in accordance with the Judicial Council’s *Trial Court Facility Modifications Policy* (see Link A). In FY 2017–18, the Facility Modification Program budget was authorized for \$65 million, and examples of significant completed facility modifications are presented in Attachment A. The \$65 million authorized program budget was applied by the TCFMAC to the following priorities:

- \$38.9 million was the Judicial Council’s share for 1,195 Priority 1, 2, and 3 facility modification projects (see Attachments B and C). These projects were funded as follows:
  - \$6.2 million was spent on 285 Priority 1 projects;
  - \$26.7 million was spent on 861 planned and unplanned Priority 2 projects; and
  - \$6.1 million was spent on 49 Priority 3 energy-efficiency projects;
- \$19.8 million was for secondary project phases and cost increases;
- \$5.6 million to support statewide facility modification planning (i.e., project management functions and preliminary project planning and estimating); and
- Approximately \$595,000 to cover the judicial branch’s share of costs for county-managed emergency projects.

Trial courts can self-fund projects through the Court-Funded Request program administered by Judicial Council staff. Funded by the trial courts in FY 2017–18 were 16 facility modification-related projects with a total estimated cost of \$4.9 million and 12 lease-related requests with a total estimated cost of \$7.8 million.

In FY 2016–17, the Facility Modification Program received one-time additional funding for deferred maintenance from the state General Fund in the amount of \$45 million for expenditure over two fiscal years. This funding is expected to be applied to approximately 40 roof replacement projects and 45 elevator/escalator projects (see Attachment D).

The current level of funding for facility modifications is insufficient to address needs statewide. The TCFMAC could not fund all needed facility modifications in FY 2017–18, which are reflected in the *Five-Year Master Plan – Deferred Maintenance Report, FY 2018–19* submitted to the state Department of Finance (see Link B). The current level of funding allows the TCFMAC to address only the most critically needed Priority 1–2 (and some Priority 3) facility modifications statewide. These facility modifications have all reached a level of critical need

requiring immediate attention, such as roof replacements, elevator renovations, and the replacement of cooling towers and chillers to restore basic building functions. Lower-priority projects—such as Priority 4–6 facility modifications for replacement of interior finishes, security enhancements, and painting of building interiors and exteriors, for example—will continue to be deferred until they reach a level of critical need.

Also, and to reduce utility costs, the TCFMAC has focused on energy conservation and efficiency projects. Judicial Council staff has been working collaboratively with the trial courts to implement a series of conservation and energy-efficiency strategies, including implementing energy-efficiency lighting and HVAC (heating, ventilation, and air conditioning) projects; controlling plug load; tracking and reporting utility cost and usage; and assisting the trial courts with the implementation of updated energy conservation guidelines adopted by the Judicial Council in September 2017 and available at <https://jcc.legistar.com/View.ashx?M=F&ID=5391981&GUID=78BE0C4C-AFC2-44C9-8025-279D2D6B2A15>.

## **Background**

In April 2013, the TCFMAC (formerly, the Trial Court Facility Modification Working Group) was established as a standing advisory committee to the Judicial Council. The TCFMAC implements the *Trial Court Facility Modifications Policy*, and its primary oversight responsibility includes reviewing statewide facility modification requests and approving facility modification funding. It also has oversight responsibility for the operations and maintenance of existing facilities, non-capital-related real estate transactions, energy management, and environmental management and sustainability.<sup>1</sup>

The advisory committee members come from the trial courts throughout the state and include justices, judges, and court executives.<sup>2</sup> On average, the TCFMAC meets every 45 days to review facility modification requests, approve funding, and make recommendations on the prioritization and funding of facility modifications. The chair, vice-chair, and members of the TCFMAC also conduct facility site visits as needed.

## **Annual Report**

As required annually by the policy, the TCFMAC submits to the Judicial Council an informational report summarizing its activities during the preceding fiscal year. This report fulfills the requirement for FY 2017–18.

## **Facility Modification Priorities**

The policy includes and defines six priority categories of facility modifications, as follows:

---

<sup>1</sup> The TCFMAC charge is available at [www.courts.ca.gov/tcfmac.htm#tab26373](http://www.courts.ca.gov/tcfmac.htm#tab26373).

<sup>2</sup> The TCFMAC roster is available at [www.courts.ca.gov/tcfmac.htm#tab26374](http://www.courts.ca.gov/tcfmac.htm#tab26374).

**Priority 1—Immediately or Potentially Critical.** A Priority 1 ranking is appropriate where a condition of the facility requires immediate action to return the facility to normal operations or where a condition exists that will become critical if not corrected expeditiously. Such conditions necessitate a facility modification to prevent accelerated deterioration, damage, or dysfunction; to correct a safety hazard that imminently threatens loss of life or serious injury to the public or court employees; or to remedy intermittent function, service interruptions, or potential safety hazards. These conditions may include, but are not limited to, major flooding, substantial damage to roofs or other structural building components, or actual or imminent hazardous material release or exposure. Depending on scope, complexity, and impact, a severe deterioration in life safety or security components may also be considered a condition requiring a Priority 1 facility modification.

Because of their critical nature, Priority 1 facility modification requests are addressed immediately by Judicial Council staff using internal procedures—including a method and a process for setting aside funds to address Priority 1 requests—that ensure timely and effective responses to unplanned damage, deterioration, or dysfunction resulting from an emergency or other potentially critical conditions. The TCFMAC then reviews staff decisions at its next scheduled meeting, validating that both the necessity and the scope of the work meet the requirements of a Priority 1 facility modification.

**Priority 2—Necessary, but Not Yet Critical.** A Priority 2 ranking is appropriate where a facility requires a modification to preclude deterioration, potential loss of function or service, or associated damage or higher costs if correction of a condition is further deferred.

**Priority 3—Needed.** A Priority 3 ranking is appropriate where addressing a facility modification will reduce long-term maintenance or repair costs or improve the functionality, usability, and accessibility of a court facility. Such a condition is not hindering to the most basic functions of the facility, but its correction will improve court operations.

**Priority 4—Does Not Meet Current Codes or Standards.** A Priority 4 ranking is appropriate where a facility or one or more of its components do not conform to current code requirements, despite having complied with all codes in place at the time of initial construction. Such conditions are considered *legally nonconforming*, and their modification to meet current code requirements is generally not required.

**Priority 5—Beyond Rated Life, but Serviceable.** A Priority 5 ranking is appropriate where a facility is currently adequate to support court operations but, owing to some condition, cannot be expected to fully and properly function as designed for more than one year without the requested facility modification.

**Priority 6—Hazardous Materials, Managed but Not Abated.** A Priority 6 ranking is appropriate for a facility modification where a facility contains hazardous materials, such as asbestos or lead-based paints, that are managed in place and not yet abated.

## Funding Sources and Restrictions

The Facility Modification Program is funded from four sources:

- State Court Facilities Construction Fund;
- Immediate and Critical Needs Account, Senate Bill 1407 (Perata; Stats. 2008, ch. 311) funding;
- Court Facilities Architecture Revolving Fund, established as a depository for the transfer of money for construction, repair, alteration, and improvement of both trial and appellate court buildings; and
- Reimbursable funds, to cover a county’s share of facility modification costs in shared-use facilities.

As shown below, in table 1, the TCFMAC used its council-delegated authority to reallocate funding based on changing needs over the course of the fiscal year.<sup>3</sup>

**Table 1: Fiscal Year 2017–18 Funding Reallocation**

<b>Program Priorities</b>	<b>Authorized Allocation (in millions)</b>	<b>TCFMAC Reallocation (in millions)</b>
Priority 1 Emergency Facility Modifications	7.0	6.2
Planned and Unplanned Priority 2 Facility Modifications	36.0	26.7
Priority 3 Energy-Efficiency Facility Modifications	6.4	6.1
Secondary Project Phases / Cost Increases	9.0	19.8
Statewide Facility Modification Planning	5.6	5.6
Judicial Council’s Share of Costs for County-Managed Emergency Projects	1.0	0.6
<b>Total Expenditure</b>	<b>\$65.0</b>	<b>\$65.0</b>

<sup>3</sup> Expenditures are based on costs determined as of June 30, 2018. Because expenditures for some project priorities are based on estimated costs for work not yet completed, actual costs may vary.

## Significant Expenditures in FY 2017–18

Contractors for both the Judicial Council and the counties performed 1,195 facility modifications in FY 2017–18 (see Attachment C), for a total combined cost of \$38.9 million. Most of these facility modifications had a total cost of less than \$50,000. Of the 1,195 facility modification projects, 27 had costs over \$300,000, for a total combined cost of approximately \$19.8 million (see Attachment E).

## Advisory Committee Activities

Using the facility modification ranking methodology provided in the policy, Judicial Council staff prepare a preliminary ranking list of all submitted facility modifications for the TCFMAC to review. The TCFMAC reviews, revises, and finalizes this list for use when considering which facility modifications to fund. Table 2, below, outlines the activities of the TCFMAC in FY 2017–18, indicating the number of facility modifications reviewed and approved, funded and open, and completed (also see Attachments B and C).

**Table 2: Facility Modification Activity in Fiscal Year 2017–18**

	Number of Facilities Modifications	Estimated Total Cost (in millions)	Judicial Council Share (in millions)
Reviewed and Approved	1,195	\$44.2	\$38.9
Funded and Open*	7581	\$145.5	\$124.5
Completed†	1030	\$24.2	\$21.6

\* Includes all funded facility modifications that were open as of June 30, 2018, regardless of the year of funding.

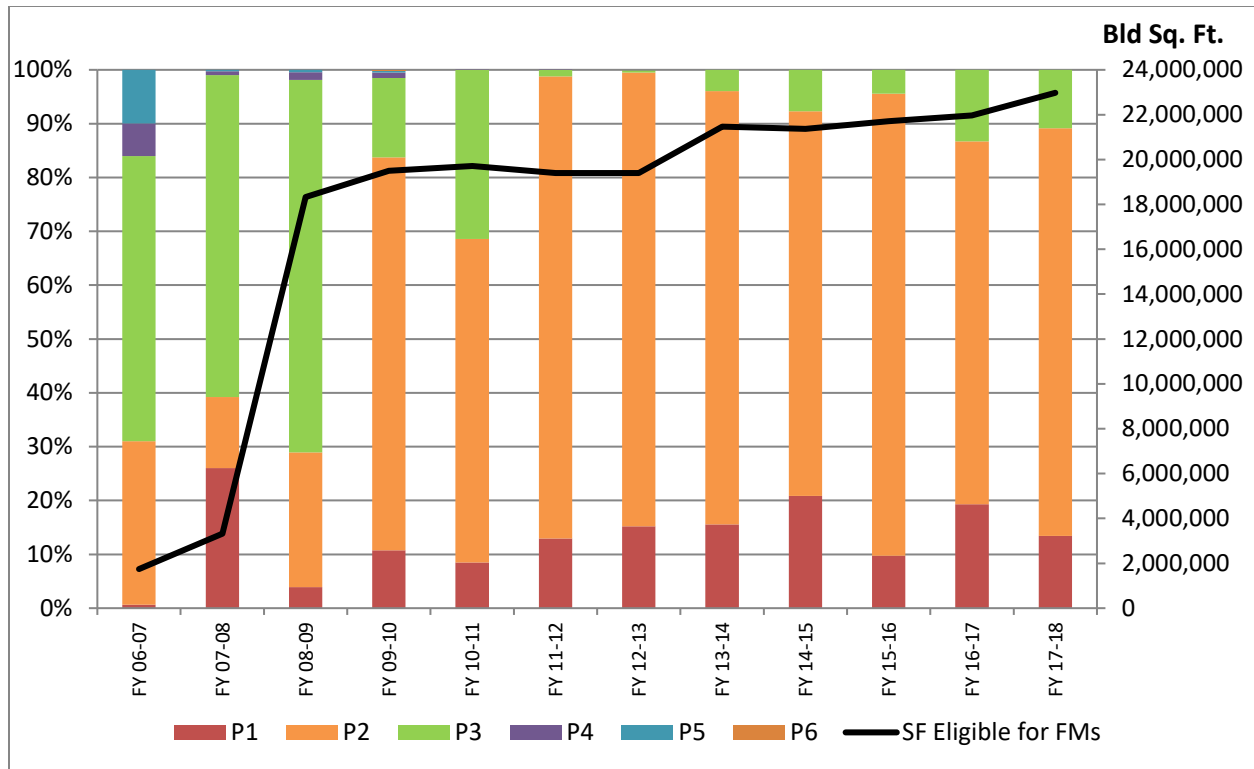

† Includes all facility modifications completed during FY 2017–18, regardless of the year of funding.

A breakdown of facility modification funding in FY 2017–18 by priority and by court approval is provided in Attachment B. Most of the funding was dedicated to Priority 2 facility modifications.

Figure 1, below, shows how funding of the priority categories has changed over time. From FY 2006–07 through FY 2008–09, funding was available for projects in all priority categories. Beginning in FY 2009–10, need outweighed funding, and funded projects were limited to those in priority categories 1 and 2 and some in category 3. Figure 1 also represents the breakdown of dollars spent by priority category, expressed as a percentage of the facility modifications funded during each fiscal year. The line represents the growth over time in square footage for which the Judicial Council has responsibility. Funding has not kept pace with square footage responsibility.

**Figure 1: Funded Facility Modifications by Priority Category**

**Operations and Maintenance**

The TCFMAC oversees court facility maintenance and repairs that must be performed periodically throughout the life of a facility to keep the building, equipment, and utilities infrastructure in a condition adequate to support its designed level of service. Broad oversight of the entire existing facility management program under one advisory committee helps ensure that the various aspects of the program are coordinated and are as cost-effective as possible.

**Court Facilities Trust Fund (CFTF).** In 2002, the CFTF was established by the Trial Court Facilities Act (Sen. Bill 1732; Stats. 2002, ch. 1082, and subsequent modifying language) to fund the ongoing operations, repair, and maintenance of trial court facilities transferred from the counties to the state. Through December 2009, more than 500 trial court facilities transferred to the Judicial Council, along with the responsibility to fund ongoing operations, repair, and maintenance costs. The Act requires each county that transferred trial court facilities to pay a county facility payment (CFP) to the state. The CFP was determined by the amount the county had expended historically on court facilities operations and maintenance (O&M), with the intent that needed funding exceeding the CFP be provided by the state through future state General Fund augmentations. Supplemental funding was last provided from the state General Fund in FY 2010–11. Over time, and to address the revenue shortfall, O&M has been cut to extremely low levels, while utility costs have increased statewide at a pace faster than inflation.

The CFTF is the only fund available to pay the costs of ongoing O&M of trial court facilities. Its primary revenue source is CFPs. CFPs constitute approximately 80 percent of the fund's revenue, with the balance coming from other sources, such as rental of court facilities and parking. Almost 90 percent of the CFTF expenditures fund utilities (e.g., electricity, gas, water, and sewer) and ongoing maintenance, with the balance used to pay for leases and insurance.

***Projected funding shortfall in outlying fiscal years, and action plan.*** In future fiscal years, the CFTF is expected to have a deficit of funds. On May 18, 2017, the Judicial Council directed the TCFMAC to address the CFTF's expected funding shortfall by reducing O&M costs in trial court facilities statewide. Operations and maintenance costs are currently being negotiated with onsite service providers, delegated trial courts, and counties, with the goal of a 10 percent reduction in costs.

Judicial Council staff will be collaboratively working with the trial courts to implement a series of conservation and energy-efficiency strategies, including:

1. Implementing energy-efficiency lighting and HVAC projects;
2. Controlling plug load;
3. Tracking and reporting utility cost and usage; and
4. Assisting the trial courts with the implementation of updated energy conservation guidelines adopted by the Judicial Council in September 2017.

### **Advisory Committee Activity Summary**

In addition to reviewing and funding projects for facility modifications and O&M, the TCFMAC has continued to refine processes and internal policies for managing facilities information to assist decision making. It has also:

- Discussed and considered Court-Funded Requests, authorizing court contributions to fund urgent court facility needs, such as leases and facility modifications;
- Participated in meetings as members of the Court Facilities Advisory Committee;
- Reviewed and approved energy-efficiency projects to offset the impact of increasing utility rates on the O&M budget;
- Reviewed and approved the annual Deferred Maintenance Report to be submitted to the state Department of Finance;
- Supported two budget change proposals for Judicial Council consideration to help alleviate facility funding shortfalls;
- Received a presentation on possible efforts to develop an in-depth ranking and prioritization report and database for facilities with a high seismic risk;

- Recommended that the Judicial Council direct its staff to take all actions necessary to reduce utility and maintenance costs, including engaging the local trial courts, and to adopt revised energy conservation guidelines; and
- Reviewed budget issues associated with lack of funding, lack of staffing, and the ongoing funding needs associated with the increasing portfolio of square footage, utility rates, and construction costs.

### **Funding Concerns and Outlook**

Because need exceeds O&M funding, Judicial Council staff maintain facilities in a run-to-failure environment that focuses exclusively on projects that respond to failed building systems. This run-to-failure environment results in otherwise avoidable disruptions to court operations because needed renewals of building systems are not timely performed. Court operations are affected by issues such as HVAC system failures, electrical service outages, and facility closures due to water leaks. Without an adequate O&M budget to perform preventative maintenance, these critical systems will continue to fail, interrupt court operations, and limit the public's access to justice.

These projects are a priority to maintain continuity of court operations in facilities throughout the state. Examples of these critical system replacements that place the public's safety at risk in court facilities include but are not limited to the following:

- Failed roofing systems causing interior structural damage;
- Failed fire protection monitoring systems causing safety issues;
- Failed elevator systems causing entrapments;
- Failed HVAC equipment causing uncomfortable or unsafe respiratory conditions; and
- Failed plumbing systems causing flooding.

Figure 2, below, presents the needed costs of unfunded projects by building system.

**Figure 2: Identified Requests by Building System\***

\* Costs as of June 30, 2018. Building system coding aligns with UNIFORMAT II principles as set by the National Institute of Standards and Technology—NISTIR 6389.

Obtaining adequate funding continues to challenge the Judicial Council and its TCFMAC as it implements the council’s Facility Modification Program and funds facilities O&M. However, the council and its TCFMAC continue to complete as much work as possible on existing facilities with available funding.

**FY 17-18 Annual Report – Completed Facility Modifications Spotlight**

**1. Compton Courthouse (Los Angeles County): Chillers Replacement**

Two, failing 600-ton chillers were removed and replaced including minor abatement and modified piping and pneumatics for access during the removal and replacement processes.

**The final project cost was \$1,140,000.**

**Before:** Existing, failing chillers (top photo)  
**After:** Newly replaced chillers (bottom photo)

**FY 17-18 Annual Report – Completed Facility Modifications Spotlight**

**2. Compton Courthouse (Los Angeles County): Plumbing Repair**

Replacement of the domestic water system pressure relief valves and basement booster pump. The proper maintenance of pressure releases and shut-off valves is important to control water pressure on all the lines in our courthouses to avoid unanticipated pipe bursting and leaks. With unanticipated plumbing services often come very expensive conditions (costing hundreds of thousands of dollars to a million dollars or more) resulting from problems with asbestos and other mechanical problems within the building.

**The final project cost was \$398,312.**

**Before:** Existing, failing valves and pump (above photos)

**After:** Newly replaced valves and pump (below photos)

**FY 17-18 Annual Report – Completed Facility Modifications Spotlight**

- 3. Hall of Justice - East (Santa Clara County): Roof Replacement (FM-0060531)**  
Removal of the existing roofing to the structural deck and replacement with Class-A fire rated, 80-millimeter, PVC single-ply membrane over new insulation for the total area of a 14,500 square foot roof.

**FY 17-18 Annual Report – Completed Facility Modifications Spotlight**

**The final project cost was \$1,326,723.**

**Before:** Old roofing material (brown) of Hall of Justice (East).

**After:** Newly replaced roof of Hall of Justice (East) with white roofing material.

456	FM-0061195	Riverside	Family Law Court	33-A1	2	Plumbing - Domestic Water Pump Booster System - Remove and replace failing domestic water pump booster system with new energy efficient system. Work includes replacement of motors, seals, controls, regulators, system pipe repairs, new 25gal hydro pneumatic tank and the installation of two VFDs. Pressure regulators and seals are actively leaking and the pressure in the water piping system of the building is causing Sloan valves to fail and plugging aerators. On multiple occasions, the pumps have been replaced, due to failure, and pipes have leaked resulting in drywall damage. Complete system failure will result in no water for the third floor up and the rooftop chiller resulting in no heating or cooling for the entire building.	\$ 58,134	\$ 58,134	100.00	Complete
457	FM-0061197	Los Angeles	Inglewood Courthouse	19-F1	2	Interior Finishes - Furnish and install (1) Von Duprin Panic Bar with outside trim; re-use the existing cylinder making adjustments to ensure proper operation. Southwest Emergency Exit Door is no longer functional, not rebounding, remaining in depressed position creating a security issue.	\$ 2,819	\$ 2,102	74.56	Complete
458	FM-0061199	Los Angeles	Inglewood Courthouse	19-F1	2	Plumbing-Replace 3 Acorn penalware lavatory sinks and faucets w/air control valves (1st floor cell c, 2nd floor cell c, and 4th floor cell b. Existing sinks are not functioning due to bad valves and are obsolete. Parts cannot be obtained for repairs.	\$ 12,111	\$ 9,030	74.56	Complete
459	FM-0061200	Solano	Old Solano Courthouse	48-A3	2	HVAC - Programming BAS to allow the return fan to track the supply fan; Mechanically sequence economizer dampers to prevent the supply fan from overdriving the return fan. - Return Fan VFD continuously trips on over-speed, due to faulty BAS programming, causing the building to lose all airflow and all cooling capabilities.	\$ 7,930	\$ 7,930	100.00	Complete

\* Total project cost does not include cost of Construction Manager or other projects where design or assessments were completed.

**Riverside County** **Hall of Justice** **FM-0002711**

HVAC - Chiller #2 - Remove and replace chiller #2 with new 300 ton Carrier magnetic bearing chiller. Given the age of the chiller (25 yrs) and use of non-compliant R-11 refrigerant, major efficiencies will be gained by replacement. Work also includes new gauges, flow sensors, temperature gauges, new chilled water pipe insulation, and new Belimo valves.

*Total Estimated Cost: \$305,580*

*JCC Share of Costs: 100%*

**Los Angeles County** **Chatsworth Courthouse** **FM-0061183**

Energy Efficiency - Electrical - Implement energy efficiency upgrade of interior and exterior lighting to LED (approx. 5022 fixtures).

*Total Estimated Cost: \$322,596*

*JCC Share of Costs: 83.80%*

**Los Angeles County** **Parking Structure Lot 48 Van Nuys Court Complex** **FM-0060627**

Fire Protection - State Fire Marshal NOC - Re-open (12) doorways that were enclosed when JCC took ownership of the parking structure from the County. JCC received a notice of correction from the State Fire Marshal to comply with fire code CBC 716.5.9. Demo existing fencing and steel at all (12) doorways, Install (12) doors/frames and hardware, and restore failing concrete stairs used for egress. Enclosed doorways do not allow public and court personal to exit parking structure.

*Total Estimated Cost: \$335,800*

*JCC Share of Costs: 89.74%*

**Los Angeles County** **Monrovia Training Center** **FM-0061520**

HVAC- Replace original failing HVAC building system, parts are obsolete and HVAC system is using non-complaint R-22 refrigerant. Work includes engineering , ACM removal, minimal piping replacement and an after-hour schedule. Provide temporary building cooling while work is in progress.

*Total Estimated Cost: \$387,750*

*JCC Share of Costs: 70.29%*

**Los Angeles County** **Bellflower Courthouse** **FM-0061667**

HVAC - Replace (2) failing cooling towers which are deteriorated, have out lived its life expectancy and currently unable to function at full capacity. Remediation and high reach equipment is needed; all work will be preformed after hours to mitigate impact on court operations.

*Total Estimated Cost: \$392,700*

*JCC Share of Costs: 77.94%*

**Los Angeles County** **Van Nuys Courthouse West** **FM-0060663**

HVAC-Rebuild two (2) cooling towers. Replace two (2) 50 hp motors, two (2) 100 gear boxes and (2) fan assemblies. In addition, replace (3) defective steel fan stiffener arms. A street closure is required to utilize crane to execute the work. This corrective measures are needed as the cooling towers are not functioning. All work must be performed after hours to mitigate impact on court operations.

*Total Estimated Cost: \$393,841*

*JCC Share of Costs: 80.48%*

**Santa Clara County** **Palo Alto Courthouse** **FM-0062008**

HVAC - Replace (2) Cooling Towers at end of life. Original building equipment and on verge of failure. Install approx. 100 of 4 and 6 steel pipe, 40 of conduit, (1) condenser pump skip, and (2) sheet metal discharge hoods on roof. Includes commissioning of system. Court is impacted with inefficient cooling of the building. The towers are housed in the Penthouse with a high potential to flood the Courthouse. Work to be performed after hours so that Court operations are not affected.

*Total Estimated Cost: \$403,494*

*JCC Share of Costs: 66.04%*

**Los Angeles County** **Compton Courthouse** **FM-0061378**

Fire Protection - Replace dampers for all twelve (12) air handlers (total of thirty-six (36) dampers) and nine (9) smoke detectors. Existing dampers are not working and must be replaced to keep the fire life safety system operational.

*Total Estimated Cost: \$431,542*

*JCC Share of Costs: 66.13%*

**Los Angeles County** **Compton Courthouse** **FM-0061100**

Energy Efficiency - Electrical - Implement energy efficiency upgrade of interior and exterior lighting to LED (approx. 4944 fixtures).

*Total Estimated Cost: \$442,800*

*JCC Share of Costs: 66.13%*

**Los Angeles County** **Clara Shortridge Foltz Criminal Justice Center** **FM-0062050**

Electrical - Replace (1) failed 4160 V transformer. Required 1 week rental & installation of 1-Megawatt temporary generator to restore lighting and HVAC. Building power loss due to failed transformer in sub-level electrical room. Air Handler Units to entire building 19 floors and lighting on West side building impacted. ACM testing required due to Soffit removal, needed for accessibility for electricians and removal/installation of transformer.

*Total Estimated Cost: \$445,864*

*JCC Share of Costs: 100%*

**Los Angeles County** **Michael D. Antonovich Antelope Valley Courthouse** **FM-0061178**

Energy Efficiency - Electrical - Implement energy efficiency upgrade of interior and exterior lighting to LED (approx. 6901 fixtures).

*Total Estimated Cost: \$449,221*

*JCC Share of Costs: 73.51%*

**San Diego County** **East County Regional Center** **FM-0061130**

Energy Efficiency - Electrical - Implement energy efficiency upgrade of interior and exterior lighting to LED (approx. 6362 fixtures).

*Total Estimated Cost: \$453,600*

*JCC Share of Costs: 67.71%*

**Los Angeles County** **Pasadena Courthouse** **FM-0061612**

Fire Protection - City of Pasadena Fire NOC- Install 1500 S.F of sprayed fire proofing (currently missing), 50 holes in concrete deck to be filled with grout and fire caulking, 75 conduit holes in walls to be patched, packed with mineral wool and fire caulked, and 50 two part sleeves to be installed around wires in fire walls that do not have sleeves and fire caulking. All work will be done in an ACM working environment. All deficiencies were existing when building transferred to JCC.

*Total Estimated Cost: \$499,950*

*JCC Share of Costs: 69.35%*

**Los Angeles County** **Whittier Courthouse** **FM-0060318**

HVAC- Replace chillers #1 and #2 with new chillers in preparation for re-opening of courthouse in late 2017 or early 2018. Existing chillers are not operational due to multiple leaks found during start up, and have outlived their life expectancy. Replacement option far outweighs the need to repair. ACM testing and remediation (if testing is positive).

*Total Estimated Cost: \$560,662*

*JCC Share of Costs: 86.43%*

**Riverside County** **Southwest Justice Center** **FM-0060440**

Exterior Shell - Remove and replace approx. 18k sq ft of failing stucco and associated waterproofing barriers and control joints on the two South facing sides of building to alleviate underlying root cause of continued water intrusion and damage to interior. After an extensive A&E study, a flaw and voids between the underlying waterproofing barriers and control joints (fry reglet) 6' to 8' above the windows were discovered. Costs will include the use of scaffolding.

*Total Estimated Cost: \$630,000*

*JCC Share of Costs: 76.40%*

**Los Angeles County**

**Norwalk Courthouse**

**FM-0060693**

Fire Protection-Remove (10,000 sqft) ACM fireproofing from ceiling in the basement file room, and replace with non-ACM fireproofing. ACM fireproofing is falling from the ceiling creating a health and safety issue.

*Total Estimated Cost: \$656,660*

*JCC Share of Costs: 85.03%*

**Los Angeles County**

**Downey Courthouse**

**FM-0057336**

Original Project was for Design only: 300 linear feet of frontage wall moved approximately 1" over 5 years of measurements. A&E report concluded wall movement caused by lack of drainage and saturation from irrigation system. A&E Recommends excavating approximately 30' deep along entire wall (in sections) and backfill with stronger aggregate/soil and compact. Remove all trees near wall. Relocate irrigation system away from wall. Add additional drainage.

*Total Estimated Cost: \$700,000*

*JCC Share of Costs: 83.70%*

**Los Angeles County**

**Van Nuys Courthouse East**

**FM-0061813**

Plumbing - Replaced (1) angle stop and 1ft. section of 1/2" copper domestic water line. Catastrophic flood occurred on the 4th floor and leaked to the basement. SCAQMD Procedure 5 remediation will be performed on floors 3 to basement. The entire east side of the building from 3rd floor down is under containment. Court closed for 3 weeks; temp cooling required for 3 floors in order for court to re-open.

*Total Estimated Cost: \$700,000*

*JCC Share of Costs: 89.74%*

**Rancho Cucamonga Courthouse**

**FM-0059537**

Elevators, Escalators, and Hoists - COUNTY MANAGED - Modernize custody elevators 6, 7, and 8. Elevators are becoming increasingly unreliable and many replacement parts are no longer available. This work is necessary to ensure that the custody elevators are reliable to prevent possible disruptions to Court operations.

*Total Estimated Cost: \$732,370*

*JCC Share of Costs: 100%*

**Los Angeles County**

**Glendale Courthouse**

**FM-0061498**

HVAC- Replace original failing HVAC system. Parts are obsolete and HVAC system is using non-complaint R-22 refrigerant. Work to include engineering , ACM removal, minimal piping replacement, high reach equipment and an after hours schedule. Provide temporary building cooling while work is in progress.

*Total Estimated Cost: \$750,000*

*JCC Share of Costs: 90.54%*

**Los Angeles County** **County Records Center** **FM-0061437**

County Managed - Elevators, Escalators, & Hoists - Modernize (3) elevators; Jacks, Cabs and doors are beyond their life expectancy and require continual repairs to maintain in service. Cost includes Engineering, Design, permit, Construction, code required upgrades (ADA, CA title 24, Tile 8) & Hazmat.

*Total Estimated Cost: \$875,000*

*JCC Share of Costs: 100%*

**Los Angeles County** **Hollywood Courthouse** **FM-0061741**

Grounds and Parking Lot - Path of Travel upgrades required by building code for the reopening of the Hollywood Courthouse.

*Total Estimated Cost: \$1,031,100*

*JCC Share of Costs: 91.09%*

**Los Angeles County** **Whittier Courthouse** **FM-0061186**

Interior Finishes - Replace all defective electrical, plumbing, HVAC, & Heating components in building that are not operational. Currently building does not meet CALOSHA, SCAQMD, and State Fire Marshal standards for re-occupancy. Building closed in 2013; no maintenance was performed from 2013-2017. Building to re-open to in 2018.

*Total Estimated Cost: \$1,200,000*

*JCC Share of Costs: 86.43%*

**Los Angeles County** **Van Nuys Courthouse East** **FM-0060694**

Interior Finishes - Remove and replace Approx. 650 sqft of lobby slab including Terrazzo floor, approx.. 492 sqft of exterior plaza slab, install (30) 18" dia. CDF columns @ 5' o.c., 16.5' deep. Work to include, design, permit, ACM abatement, and construction. Settlement of lobby/plaza slab-on-grade and associated rainwater intrusion into lobby had progressed to the point that it's unsafe for the public and employee when entering courthouse during rain season.

*Total Estimated Cost: \$1,224,853*

*JCC Share of Costs: 89.74%*

**Santa Clara County** **Hall of Justice (East)** **FM-0061986**

Elevators - (2 each) Completely Refurbish staff/custody elevators 5 & 7 with new modernized controls, motors, internal components, and car operating panel. Replace cab lanterns to LED, (2) HVAC units for elevator machine rooms. Per SFM requirements, install smoke curtains, upgrade Fire Life Safety components to meet current codes. Includes County plan review and permits and mechanical and electrical upgrades to bring system to code.

*Total Estimated Cost: \$1,333,312*

*JCC Share of Costs: 100%*

**Fresno County**

**Fresno County Courthouse**

**FM-0050464**

Elevators - Restore all three public elevators #1, #2, and #3 to mechanically engineered specifications for reliable operation and prevention of breakdowns and entrapments, and bring elevators up to current Title 24 ADA and fire/life/safety standards - Elevator equipment, including control and drive systems, are reaching the end of useful life and replacement parts are not readily available, risking extended elevator down time and court disruptions.

*Total Estimated Cost: \$1,563,333*

*JCC Share of Costs: 95.51%*

**Los Angeles County**

**Metropolitan Courthouse**

**FM-0060954**

Exterior Shell - Weather proof and structural retrofit - Remove and replace failing traffic coating, remove soils from planters and over parking structure, weather proof planters and over parking structure, fabricate and install precast steps (2 ea) and planter caps (approx. 12ea), fabricate and install I-Beam supports in parking structure (approx. 12 areas)

*Total Estimated Cost: \$4,000,000*

*JCC Share of Costs: 94.54%*
