Executive Summary

As outlined in California Rules of Court, rule 10.16, the Technology Committee oversees the Judicial Council's policies concerning information technology. The committee assists the council by providing technology recommendations focusing on the establishment of policies that emphasize long-term strategic leadership and align with judicial branch goals. The committee is responsible for ensuring that specific projects approved and funded by the council comply with the relevant council policies, proceed on schedule, and stay within scope and budget. This report summarizes the committee's activities since the last Judicial Council internal committee written report, which was submitted for the council's March 15, 2024, business meeting.
