Report Type

Action Required

Executive Summary

Government Code section 68502.5(c)(2)(A) requires the Judicial Council to issue preliminary allocations for trial court operations in July and finalize those allocations in January of each fiscal year. In accordance with this requirement, the Trial Court Budget Advisory Committee recommends allocating \$3.2 billion to the trial courts for fiscal year 2026–27. This total includes \$3.1 billion from the Trial Court Trust Fund and \$117.8 million from the General Fund. The committee also recommends approval of the Workload Formula policy calculation of \$2.7 billion, which is based on methodologies previously approved by the Judicial Council. Based on current revenue projections and estimated savings from fiscal year 2025–26 appropriations, the Trial Court Trust Fund is projected to end fiscal year 2026–27 with a fund balance of \$335.5 million. Approximately \$248 million of this amount will be unrestricted and available to support future funding needs.

Recommendation

The Trial Court Budget Advisory Committee recommends that the Judicial Council, effective July 17, 2026:

1. Approve total allocations of \$3.2 billion from the Trial Court Trust Fund and General Fund, including base, discretionary, and nondiscretionary program funding (Attachment B, column W). These allocations are subject to technical adjustments and funding included in the final enacted budget for fiscal year 2026–27.
2. Approve the Workload Formula policy calculation of \$2.7 billion for fiscal year 2026–27, consistent with existing Judicial Council–approved methodologies (Attachment C, column V).

The Judicial Branch Budget Committee approved these recommendations for consideration by the Judicial Council.

Relevant Previous Council Action

The allocation of funding appropriated in the state budget to the trial courts is one of the principal responsibilities of the Judicial Council. The council allocates this funding through various methodologies, including the Workload Formula policy.

In its December 2017 report to the Judicial Council, the Trial Court Budget Advisory Committee (TCBAC) established the principles of the Workload Formula policy for fiscal year (FY) 2018–19 and beyond (Link A). On January 12, 2018, the Judicial Council approved changes to the policy that eliminated the historical base to improve transparency, accountability, and predictability, and simplify reporting (Link B).

The Workload Formula policy established a base funding floor for the two smallest trial courts, Alpine and Sierra, to ensure these courts had sufficient funding to support core operations. At its business meeting on March 15, 2019, the Judicial Council approved an increase to the base funding floor from \$750,000 to \$800,000 (Link C). On March 11, 2022, the council further increased the base funding floor to \$950,000 effective July 1, 2022 (Link D). At its March 2023 meeting, the council updated the policy so that the base funding floor courts could receive inflationary funding consistent with the other trial courts (Link E).

At its meeting on January 17, 2020, the Judicial Council approved technical adjustments to the Workload Formula policy to clarify allocation methodologies that would further the goals of funding equity, minimize adverse funding impacts, and provide clear direction on applying policy parameters when calculating allocations to the trial courts (Link F).

Analysis/Rationale

The Governor’s proposed FY 2026–27 budget maintains essential program funding to support California’s court system. This includes additional funding for trial court operational cost increases (\$70 million) and funding for court employee health benefit and retirement cost

increases (\$23.3 million). The current proposed budget for FY 2026–27 does not include new money as defined by the Workload Formula policy.

The May Revision also includes an additional \$20 million each year for two years from the Trial Court Trust Fund (TCTF) for the Court Interpreters Program in FY 2026–27 and FY 2027–28. The additional funding is to address the growing costs of court interpreter services and ensure that trial courts have adequate resources to support program needs.

Resource Assessment Study and Workload Formula policy

The calculated funding level of each court is measured by the Judicial Council–approved weighted caseload study, the Resource Assessment Study (RAS). The methodology for weighted caseload was developed by the National Center for State Courts and is based on the principle that funding should be linked to workload. In addition to California, at least 30 other states utilize the RAS model to measure court workload.

California’s RAS model calculates 22 different caseweights and uses an average number of processing minutes per case type, taking into account differences in workload complexity and time to process, and multiplies those weighting factors by the number of filings in each case type in each court. The processing minutes, totaled for all case types and based on each court’s unique case mix, constitute the “workload” for each court. This workload is then used to calculate how many trial court staff are needed to process these cases.

The number of staff is then converted to a dollar need using an average salary cost, adjustments for cost-of-labor differentials based on U.S. Bureau of Labor Statistics (BLS) data, retirement and health costs, operating expenditures and equipment costs, and other adjustments to account for court size to be used in the Judicial Council’s Workload Formula methodology. The statewide funding need generated by the Workload Formula policy is updated annually using the most recent three-year average of filings data.

The Workload Formula policy has been in place since FY 2018–19. It was designed to promote funding equity, stability, and predictability for the trial courts, and to provide courts with time to adjust when state budget changes occur.

2024 RAS time study

A time study was completed in 2024, resulting in updated caseweights for the 22 case types included in the RAS model. The study found that case complexity increased for many case types compared to the prior 2017 caseweights (based on a 2016 time study). These changes reflect several factors, including legislation enacted over the eight-year period between studies and shifts in case volume and case mix across courts. The Judicial Council approved the updated 2024 caseweights at its April 25, 2025, business meeting.¹

¹ Judicial Council of Cal., Advisory Com. Rep., [Trial Courts: Update of Resource Assessment Study Model](#) (Apr. 9, 2025).

Because of the long interval between the two studies (2016 to 2024), the significant changes identified in the 2024 time study, and the substantial differences between the 2016 and 2024 caseweights, the Judicial Council determined at its July 2025 business meeting that the updated caseweights should not be used immediately. In addition, the approval of the new caseweights occurred only a short time before the calculation of FY 2025–26 allocations. To allow sufficient time to understand the reasons for the changes and evaluate their impact on trial court funding, the council decided to continue using the 2017 caseweights for the FY 2025–26 Workload Formula calculation and to defer implementation of the 2024 caseweights until FY 2026–27.

Consistent with past practice, the FY 2026–27 Workload Formula calculation incorporates the standard annual updates to the RAS model. These updates include the most recent filings data, salary and benefit information, operating expenditures and equipment costs, BLS, and court executive officer salary data. The FY 2026–27 calculation also incorporates the updated 2024 caseweights.

Funding for operational cost increases (Consumer Price Index)

Each year, the cost of maintaining existing service levels in the California court system increases due to the general inflationary pressures affecting all government operations. In fiscal years 2021–22, 2022–23, and 2023–24, the final budgets included Consumer Price Index (CPI) adjustments to help the courts address these rising operational costs. Because this funding was intended to benefit all trial courts, it was allocated proportionally by applying the CPI percentage increase to each court’s prior-year Workload Formula allocation.

At its July 2024 business meeting, the Judicial Council reviewed the Workload Formula policy definition of “new money” as it relates to CPI funding. The council approved a recommendation to clarify that CPI funding included in the budget to address inflationary cost increases is *not* considered “new money” for purposes of Workload Formula allocations. The definition of “new money” in the policy was revised accordingly to exclude CPI funding.²

In FY 2025–26, the final budget included \$40 million to address ongoing trial court operational cost increases due to inflation. Similarly, the proposed FY 2026–27 budget includes \$70 million for the same purpose. The table below summarizes CPI-related proposals and funding provided to the trial courts in recent fiscal years.

Fiscal Year	Dollars (in millions)	CPI-Related Funding for Trial Courts
2020–21	\$0.0	January budget included \$61.7 million for 3.0% CPI increase; withdrawn in May Revision due to projected deficit from COVID-19 pandemic.
2021–22	72.2	Represents 3.7% CPI increase. ³

² Judicial Council of Cal., Advisory Com. Rep., [Trial Court Budget: Allocations from the Trial Court Trust Fund and Trial Court Allocations for Fiscal Year 2024–25](#) (June 17, 2024).

³ Judicial Council of Cal., Judicial Branch Budget Com. Rep., [Trial Court Budget: Allocation Methodology of \\$72.2 Million Trial Court Funding in Governor’s Proposed 2021–22 Budget](#) (June 17, 2021).

2022–23	84.2	Represents 3.8% CPI increase. ⁴
2023–24	74.1	Represents 3.0% CPI increase. ⁵
2024–25	0.0	Request submitted to Department of Finance for 2.9% CPI increase (\$67 million). Due to state’s fiscal deficit, Budget Act of 2024 included \$97 million reduction for trial courts and no CPI funding. The \$97 million reduction was subsequently reduced to \$55 million ongoing.
2025–26	40.0	Represents 1.6% operational cost increase; ⁶ initial request was \$67 million for 2.7% CPI increase.
2026–27 (proposed)	70.0	Included in FY 2026–27 proposed budget. Represents 2.7% operational cost increase; initial request was \$79.7 million for 3.1% CPI increase.
Total	\$340.5	

Consistent with the approach used to allocate the \$40 million in FY 2025–26, the proposed \$70 million for operational cost increases is allocated as a proportional increase of 2.7 percent over each trial court’s FY 2025–26 Workload Formula allocation. This method aligns with the Judicial Council’s existing policy for distributing inflation-related funding. As a result of this proportional increase, the base funding floor for the two smallest courts will increase from \$994,000 to \$1.0 million for FY 2026–27.

Base, discretionary, and nondiscretionary program allocations

1. Judicial Council (Program 0140010):
 - Allocation of \$4.1 million for Judicial Council staff (Attachment A, column H, line 30).

2. Support for Operation of the Trial Courts (Program 0150010):
 - a. Trial Court Trust Fund allocation of \$2.7 billion (Attachment B, column O).
 - b. New allocations of:
 - i. \$70 million for trial court operational cost increases included in the proposed FY 2026–27 budget (Attachment B, column E);
 - ii. \$23.3 million for trial court employee (noncourt interpreter) benefit cost increases for FY 2026–27 (Attachment B, column F); and
 - iii. \$1.5 million for implementation of Senate Bill 549, Tribal Nations Access to Justice Act, for the Superior Court of Sacramento County (Attachment B, column J).
 - c. Allocation of \$44.1 million for support for operation of the trial courts (Attachment A, column H, line 31).

⁴ Judicial Council of Cal., Advisory Com. Rep., [Trial Court Budget: Allocations from the Trial Court Trust Fund and Trial Court Allocations for 2022–23](#) (June 28, 2022).

⁵ Judicial Council of Cal., Advisory Com. Rep., [Trial Court Budget: Allocations from the Trial Court Trust Fund and Trial Court Allocations for 2023–24](#) (June 23, 2023).

⁶ Judicial Council of Cal., Advisory Com. Rep., [Trial Court Budget: Allocations from the Trial Court Trust Fund and Trial Court Allocations for Fiscal Year 2025–26](#) (June 24, 2025).

3. Court-Appointed Dependency Counsel (Program 0150011):
Allocation of \$186.7 million for court-appointed dependency counsel (Attachment A, column H, line 32) reflected as a statewide total.
4. Community Assistance, Recovery, and Empowerment (CARE) Act (Program 0150010):
Allocation of \$32.9 million for CARE Act (Attachment B, column K, included in Unallocated) reflected as a statewide total.
5. Court Interpreters (Program 0150037):
Allocation of \$87,000 for Court Interpreter Data Collection System (Attachment A, column H, line 33).
6. Expenses on Behalf of the Trial Courts (Program 0150095):
Allocation of \$20.8 million for Judicial Council for expenditures on behalf of the trial courts (Attachment A, column H, line 34).

General Fund

Allocation of \$68.8 million General Fund for trial court employee benefits (Attachment B, column P).

FY 2026–27 Workload Formula Allocation

The FY 2026–27 Workload Formula allocation includes allocations, revenues, and adjustments of \$2.7 billion (Attachment C, column V).

Changes to the prior year Workload Formula allocation include:

- a. \$2.9 million decrease to the subordinate judicial officer allocation (Attachment C, column K);
- b. \$450,000 increase for automated recordkeeping and micrographics collections from FY 2023–24 to FY 2024–25 (Attachment C, column L);
- c. \$23.3 million increase for FY 2026–27 trial court employee (noncourt interpreter) benefit cost increases (Attachment C, column M);
- d. \$9.2 million for criminal justice realignment (Attachment C, column N);
- e. \$44.4 million for revenues collected in FY 2024–25 (Attachment C, column O);⁷
- f. \$70 million increase for trial court operational cost increases (Attachment C, column P);
- g. Base funding floor increase for two courts, Alpine and Sierra, from \$994,000 to \$1.0 million (Attachment C, column R); and

⁷ Includes all other applicable revenue sources as recommended by the Funding Methodology Subcommittee, excluding civil assessment revenue as of FY 2022–23. Revenue does not reflect an allocation of funding to the trial courts but is used in the calculation of the Workload Formula allocation.

- h. FY 2026–27 funding floor adjustment, with all other courts sharing a pro rata adjustment in the funding floor allocation (Attachment C, columns S and U). The funding floor adjustment may change based on final appropriations included in the Budget Act of 2026.

Pending Allocations

Items pending allocation from the appropriation for support for operation of the trial courts (Program 0150010) include the following:

- a. Under Government Code section 77203(b), a trial court may carry over unspent funds in an amount up to 3 percent of its operating budget from the prior fiscal year. Because the courts have until July 15, 2026, to submit their preliminary FY 2025–26 ending fund balances, the preliminary reduction amounts for reserves above the statutory cap described in Government Code section 68502.5(c)(2)(A) (Link G) will not be available in time for consideration by the TCBAC before the Judicial Council’s July 17, 2026, business meeting. Consistent with past practice, the TCBAC will consider the final allocation reductions for fund balances above the cap and make recommendations to the council before January 2027.
- b. Once final FY 2025–26 collections are known, the allocation of funding collected through the dependency counsel collections program—calculated using the Judicial Council–approved formula—will be presented to the TCBAC and the Judicial Council.
- c. Additional allocations will be made for various revenue distributions required by statute or authorized as charges for program costs or cash advances.

Potential impacts to allocations

Allocation adjustments may be required if there are changes to appropriations or related language in the Budget Act of 2026.

The proposed FY 2026–27 budget maintains \$5 million in the Trial Court Emergency Fund to support emergency situations, revenue shortages, or budgetary imbalances. The proposed allocations in this report assume that none of this funding will be used in FY 2026–27. If any portion of the fund is allocated during the fiscal year, the courts will be required to replenish the amount used from their FY 2027–28 base allocations.⁸

The projected FY 2026–27 ending TCTF fund balance is \$335.5 million (Attachment D, column F, row 23), consisting of:

- a. \$87.5 million in restricted funds, limited by statute or Judicial Council policy, (Attachment D, column F, row 25); and
- b. \$248 million in unrestricted funds (Attachment D, column F, row 26).

⁸ Judicial Council of Cal., Judicial Branch Budget Committee meeting materials (Mar. 18, 2019), [*Item 1: FY 2018-19 \\$10 Million Emergency Reserve Funding Request, Superior Court of California, County of Humboldt.*](#)

Based on current revenue projections and anticipated savings in the current year, the Trial Court Trust Fund can support the preliminary FY 2026–27 allocation requests totaling \$3.2 billion. The final allocations will be updated to reflect any necessary technical adjustments and remain contingent on the funding included in the enacted budget for FY 2026–27.

Policy implications

The allocation recommendations comply with the statutory requirement that the Judicial Council approve preliminary trial court allocations each July. The recommendations support continued adherence to established funding policies and statutory timelines.

Comments

This proposal was not circulated for public comment. However, the recommendations were considered at meetings that were open to the public, and no public comments were received.

Alternatives considered

The recommended allocations follow approved methodologies and long-standing practices. Where changes are proposed, they were thoroughly evaluated through the committee process and determined to be necessary.

Fiscal and Operational Impacts

If the recommended allocations are not approved, the fiscal and operational impacts to the trial courts will be significant. Insufficient funding will impair vital court operations and limit access to justice across the state.

¹ FY 2026–27 ongoing base allocations.

² Benefits funding reflects actual cost changes as identified by court and is fiscally neutral.

³ FY 2026–27 one-time base allocations.

⁴ Unallocated includes \$30 million for court reporters, \$7 million for increased transcript rates, and \$32.9 million CARE Act funding for a total of \$69.9M TCTF allocations.
