### Executive Summary

The Family and Juvenile Law Advisory Committee recommends amending three rules and adopting two forms to implement recent statutory changes that authorize placing agencies to petition the court on behalf of nonminor dependents who were ineligible for federal funding as children to terminate the nonminors from juvenile dependency or transitional jurisdiction, and immediately reenter them to allow a new federal eligibility determination to be undertaken so that federal matching funds can be accessed to cover the costs of their cases.

### Recommendation

The Family and Juvenile Law Advisory Committee recommends that the Judicial Council, effective September 1, 2022:

1. Adopt new forms *Petition and Order to Exit and Reenter Jurisdiction—Nonminor Dependent* (form JV-469) and *Findings and Orders Regarding Exit and Reentry of Jurisdiction—Nonminor Dependent* (form JV-471) to allow an agency to petition for and a court to grant an

order exiting a nonminor from jurisdiction and allowing them to reenter with a new voluntary placement agreement; and

2. Amend California Rules of Court, rules 5.555, 5.570, and 5.906 to clarify that their specific procedural requirements do not apply when reentry is done via this process and make them gender neutral.

The proposed amended rules and new forms are attached at pages 7–19.

## **Relevant Previous Council Action**

Rules 5.555 and 5.906 were originally created to implement extended foster care legislation co-sponsored by the Judicial Council,<sup>1</sup> and they have been revised numerous times in response to subsequent clarifying legislation. Rule 5.570 was first adopted as rule 1432, effective January 1, 1991, and was amended and renumbered as rule 5.570 effective January 1, 2007. It has been amended numerous times, most recently effective January 1, 2020, to implement legislative clarifications concerning the requirements of the Indian Child Welfare Act.

## **Analysis/Rationale**

### **Background**

In 2021, the Legislature enacted Assembly Bill 640 (Cooley; Stats. 2021, ch. 622) to provide a mechanism for county child welfare and probation agencies to obtain a redetermination of eligibility for federal financial participation in a foster care case for a nonminor dependent. Such a redetermination is beneficial to the state and the agency because of the restrictions on which cases can receive federal matching funds for reimbursement. As the Assembly Floor Analysis for AB 640 explains:

Foster care payments for eligible youth are provided through either state or federal AFDC-FC [Aid for Dependent Children–Foster Care]. In order to be eligible for federal AFDC-FC, the home from which the child was removed must meet Aid for Dependent Children (AFDC) eligibility criteria from 1996 for the month in which a dependency petition is filed with the juvenile court, or in any of the six months prior to the month in which the petition is filed. In 1996, the income limit for a family of three to qualify for AFDC was \$723. Eligibility for federal AFDC-FC is determined at the time a child is removed from their parent’s custody and eligibility is not re-determined once the youth is in foster care. Because many youth are ineligible for federal AFDC-FC, California created state AFDC-FC, which provides funding to foster children who are placed with non-relative foster parents.

Because eligibility for federal AFDC-FC is determined at the time a child is removed from their parents’ custody, youth who immediately transition from

foster care to EFC do not undergo federal AFDC-FC eligibility re-determination, as there is no disruption in their foster care status that would warrant re-determination. However, current law permits nonminors who are eligible for EFC to undergo re-determination for federal AFDC-FC if they re-enter the dependency system through a voluntary re-entry agreement.

(Assem. Floor Analysis, Sen. Conc. Amends. to Assem. Bill 640 (2021–2022 Reg. Sess.) Sept. 2, 2021, pp. 3–4.)

The legislation adds a new subdivision (f) to Welfare and Institutions Code section 388<sup>2</sup> to authorize the placing agency to file the request for the court to terminate its specific jurisdiction over the nonminor and resume that jurisdiction on behalf of and with the consent of the nonminor. It provides that there be no break in services and prohibits filing a petition if the nonminor is categorically ineligible for federal funds, or if the nonminor is a member of a tribe and filing the request would disrupt services or make the nonminor ineligible for services. The request may be granted by the court without a hearing, and the proceeding is not subject to the requirements for other hearings to terminate juvenile court jurisdiction.

AB 640 requires the Judicial Council to adopt any needed rules or forms for implementation by September 1, 2022. Many nonminor dependents whose families were ineligible for federal financial participation when the nonminor entered care are expected to be eligible when they are evaluated as nonminors based on their current income, which will allow the state to draw down additional federal funds for foster care.

***Petition and Order to Exit and Reenter Jurisdiction—Nonminor Dependent (form JV-469)***

The committee recommends that the council adopt a mandatory form to be used by the placing agency to petition the court to dismiss and then resume jurisdiction over the nonminor. The form would also allow the court to order the matter to be set for a hearing. In most cases, it is expected that a hearing will not be required, in which case the court would use the other proposed form to make all of its findings and orders. In response to feedback received from public comment, the committee has included space on the form for the agency to document the time and manner in which it received the consent of the nonminor, as well as certifications that the petition is in the nonminor’s best interest and that reasonable efforts have been made to address the nonminor’s needs. The form also clarifies the mechanisms by which service on the nonminor and counsel can be accomplished to include the standard means for serving a modification petition, mail service, personal service, or electronic service pursuant to section 212.5.

***Findings and Orders Regarding Exit and Reentry of Jurisdiction—Nonminor Dependent (form JV-471)***

The committee recommends an additional mandatory form be adopted for the court to make the findings and orders required to dismiss and resume jurisdiction over the nonminor so that the

placing agency may enter into a new nonminor dependent agreement with the youth and redetermine federal financial eligibility. The form would also allow the court to deny the request if it found that granting the petition was not in the nonminor's best interest.

### **Amendments to rules 5.555, 5.570, and 5.906 to exclude exit and reentry from procedural requirements**

The committee recommends amending rules 5.555 and 5.906, which address procedures to be used when terminating jurisdiction over a nonminor or resuming jurisdiction when they reenter care after exiting in other circumstances, to make clear that neither rule applies to the exit and reentry provisions of section 388(f). Similarly, rule 5.570, which governs the procedures for other petitions filed pursuant to section 388, would be amended to clarify that it does not apply to subdivision (f). Each of these rules would then provide that cases filed under section 388(f) should be handled using the two mandatory forms described above. In addition, rules 5.555 and 5.906 would be amended to delete gender specific pronouns to conform to the council's policy that rules and forms be gender neutral whenever that does not conflict with the substantive law. The changes to make the rules gender neutral were not circulated for public comment, but are entirely technical in nature and thus are recommended to be made without further circulation.

### **Policy implications**

The legislation that enacted section 388(f) requires the council to develop and implement rules and forms as necessary to implement its provisions so that the state and counties can access additional federal funds. The committee opted to rely upon the adoption of two mandatory forms as the primary means of implementation of the section with rule changes only to clarify that this process was not subject to other procedural requirements. This choice was made to streamline the process and ensure consistent statewide implementation with as little administrative burden on the courts or child welfare agencies as possible to effectuate the statutory goals.

### **Comments**

This proposal circulated for public comment from December 10, 2021, to January 21, 2022, as part of the winter rules cycle. The committee received comments from 10 entities, including four superior courts. One commenter agreed with the proposal, eight agreed with the proposal if modified, and one did not indicate a position. The committee made some stylistic changes and fixed typographical errors in response to the comments in addition to the specific issues raised in the comments discussed in more detail below. The chart of comments is attached at pages 20-43.

### ***One form as petition and order is workable in this limited situation***

The committee sought specific comment on whether it was preferable to have one form to serve as both the request by the agency and the order to set a hearing or not for the court. Most commenters indicated that they preferred one form for simplicity, and even those who indicated they generally prefer separation of these functions indicated that one form was workable in this situation. The committee did revise this form, however, to make it an order only when the court determined that a hearing on the petition was required. Because such hearings will be rare, the result is that the form will generally only need to be used as a petition and the court will not need to sign two orders to finalize most of these petitions.

***Forms are an effective way of implementing a procedure for this section and should be mandatory***

The committee sought specific comment on whether in addition to the proposed forms, a rule should be adopted to set forth the procedures for these petitions and orders. All commenters agreed that the rules were sufficient, although one noted that rule 5.570, which governs modification petitions filed under section 388, also needed amendment to clarify that it does not apply to these petitions; the committee took that suggestion and added amendments to that rule to the proposal. Because the forms will be the mechanism to ensure that the statutory requirements of section 388(f) are carried out, the committee concluded that it was best for them to be mandatory forms. A child welfare agency noted that it does not typically use council forms for its pleading, but the committee was persuaded by the larger number of commenters who wanted mandatory forms. The committee notes that this process is not required but is available to agencies who believe that it will result in additional federal funding, and they can recreate the mandatory forms in their case management systems as allowed by rule 5.504(b).

***Consent should be documented, but a separate form is not required***

The statute requires that the consent of the nonminor be obtained before the petition is filed with the court—and the petition as circulated for comment required the petitioner to certify that consent was obtained and to serve a copy on the nonminor and counsel—but the committee sought comment on whether an additional consent form should be approved. While some commenters thought that was the preferred option, a number suggested incorporating proof of consent into the petition to ease the burden on the agency and simplify the process. The committee adopted this suggestion and added a section to the request and order form for the petitioner to document the time and manner by which consent was obtained from the nonminor.

***Clarified findings to ensure compliance with federal requirements***

Three legal advocacy organizations submitted joint comments expressing concern that the proposal would not satisfy its statutory objectives because it would not allow for an eligibility redetermination under federal law. Their view was that the statute and the proposal were predicating eligibility for a redetermination based on the voluntary reentry of the nonminor, a procedure that can occur under existing law when a nonminor chooses to exit foster care and then subsequently elects to reenter care.

After consulting with the California Department of Social Services, and a close reading of the statute, the committee concluded that section 388(f) is not a voluntary reentry petition, but rather a court-ordered termination and resumption of jurisdiction made with the consent of the nonminor. To ensure that this process is consistent with federal title IV-E requirements, the committee has added a “reasonable efforts” finding to the findings and order form, and has modified the petition to require the agency to certify the basis for this finding as well as the best interest finding. With these modifications, the committee believes that the forms are consistent with section 388(f) and will allow agencies who seek to use this process to redetermine eligibility for any youth who may be newly eligible for federal financial participation.

### **Alternatives considered**

As described above, the committee considered adopting a new rule of court to implement section 388(f) but concluded that the statutory guidance and the forms were sufficient to allow the courts to administer this new process. The committee also considered whether a form was required to document the consent of the nonminor and ultimately concluded that it would be preferable to require the petitioner to document the time and method of obtaining consent on form JV-469, rather than require that a signature be obtained on a separate form. The committee considered separating the order form from the petition but, based on the comments, opted instead to narrow the circumstances in which the petition would be used as an order form for those rare cases in which a hearing is required. The committee considered taking no action on rules or forms, but that would have been in direct contravention of the statutory requirement that rules or forms be developed by September 1, 2022.

### **Fiscal and Operational Impacts**

The proposal is designed to minimize the burden on the courts to implement the new legislative option by providing simple and streamlined mandatory forms to be filed by the placing agency. Because the legislation allows the court to take this action without holding a hearing, the workload burden is expected to be mostly administrative. The committee heard from four courts that the burdens would involve training and case management changes that would be workable in their courts. Only one court of the four that submitted comments indicated that three months was not sufficient time to implement these changes, but because the statute requires that the forms be in place by September 1, the committee determined that implementation could not be delayed beyond that date.

			<p>As it stands the proposal does not provide adequate protection for the youth’s position as required by the law. Either there should be a form to document the consent of the nonminor, or the petition should include a box for the agency to check whereby the agency: (a) verifies that the youth has provided consent, (b) provides the date of consent and (c) describes the manner in which the agency obtained the youth’s consent.</p> <p>Other areas of concern:</p> <p>There are some limited situations in which granting this petition could be very problematic for a non-minor dependent. The proposal does not provide any process for the non-minor dependent to object to the request. Given that most of these petitions will be approved without a hearing – as stated in the proposal – it is important to have a process to object, especially if there is no form showing the consent of the nonminor.</p>	<p>The committee has added space on the form to document the date and manner by which the agency obtained the consent of the minor.</p> <p>The petition is required to be served on the nonminor and their attorney and has been clarified to specify the optional proof of service form that can be used to document service. If the nonminor objects (despite have provided consent as documented on the petition) the attorney would be able to contact the court and request a hearing to raise any objection.</p>

			<p>and youth establish federal eligibility for AFDC-FC after turning 18, but as it is currently framed, it will both fail to establish eligibility and may also allow placement authority to lapse. This is not the intent of the law, but it is not yet clear whether this can be corrected through only form adjustment, or even with form adjustment and a new court rule. It may require a statutory cleanup.</p> <p>The crux of the problem is that the reentry order, as written in form JV-469, does not satisfy the federal removal requirements. Because the point of this provision is to end the removal and establish a new removal period, the removal requirements and placement authority must be established anew. After the age of 18, a new removal period can begin in one of two ways under the federal structure. First, when there is statutory authority to do so, a court can order a removal and authorize placement by making a contemporaneous contrary to the welfare finding and reasonable efforts determination. Such authority does not exist in California. The other way to establish a new removal and placement authority is through a voluntary placement agreement (VPA). Under this process, it is the execution of the agreement that confers placement authority, which is continued (and may only be continued past 180 days) with a court finding that continuance of the VPA and</p>	<p>redetermination of federal eligibility. The commenter correctly notes that there are two means to establish a new removal period, either by court order, or via a voluntary reentry agreement. However, the committee reads the amendments to section 388 to in fact authorize the court to order a removal and authorize placement after making a finding that placement into foster care is in the nonminor’s best interest, and that the agency has made reasonable efforts to meet the nonminor’s needs prior to a foster care placement. These are the findings needed to resume dependency jurisdiction for a nonminor, and the petition and the form have been revised to ensure that the court can make them and thereby allow the placing agency to sign an agreement with the nonminor to ensure that the nonminor can remain eligible for extended foster care. This agreement is not a voluntary placement agreement that would be signed when the nonminor is initiating the reentry, but rather it is analogous to the agreement that must be signed by all in foster care at age 18 who wish to remain in extended foster care until age 21. As a result, the statute and the form require that it be signed after the court orders a new removal and entry into foster care for the nonminor. The proposed revised forms will ensure that the court ordered process includes required federal findings so that the redetermination can be made.</p>

			<p>remaining in foster care is in the youth’s best interests, otherwise known as a best interest finding.</p> <p>With the form and hearing as currently structured, there is no finding that the nonminor and the agency have entered into a voluntary placement agreement as there is in the form JV-472 reentry order section. Absent this VPA, there is no removal and authority for the court to place the nonminor with the agency. This can obviously be corrected when a nonminor appears at the hearing and executes a VPA in between exit and reentry. It is also possible that a youth could execute a new VPA in advance of the hearing and that could be a required attachment to the petition.</p> <p>However, we would need to review whether it is possible to execute the agreement prior to the exit. If this is possible, then one solution would be to add the VPA finding to the form in a manner similar to that in JV-472 and to require the VPA to accompany the petition. Given the importance of establishing a new removal and placement authority, and the fact that a new best interest finding would also be required to complete, it would be prudent to have a court rule outlining the process and the necessary components for the petition.</p> <p>It is worth exploring whether there is a way to correct the problem without a statutory correction. At the very least, the hearing process and form need to account for the VPA</p>

			<p>requirement and the need for a new best interest finding.</p> <p><b>The Forms Should be Mandatory</b>                      A court should not be able to grant a reentry order without simultaneously providing findings and orders regarding the granted reentry order. Allowing otherwise could place a nonminor dependent out of care. Further, there is a need for this to be a clean and unconvoluted process. The forms should be mandatory.</p> <p><b>A Nonminor’s Documented Consent Should be Included in Form JV-469 and Presented as a Finding on Form JV-471</b>                      Consistent with the goals of the extended foster care program, any form used to obtain a minor's form consent should be accessible to the nonminor. It should be easy for the nonminor to read and understand. That said, a nonminor’s documented consent does not require a new form. Instead, documentation should be included in form JV-469 and be listed as one of the findings on form JV-471. As additional new forms pose a risk to all involved, documenting the nonminor’s consent on existing forms will encourage a more seamless process.</p>	<p>Based on the comments, the committee agrees that mandatory forms are justified here, especially since a rule has not been adopted to ensure that services are not disrupted.</p> <p>The committee has revised the petition to require the agency to document the time and manner in which it obtained the consent of the minor.</p>

DCFS Juvenile Court Services and Principal Deputy County Counsel Ana Maria Herrera Murray believe the forms should be mandatory to ensure that the juvenile court makes all the appropriate findings. Principal Deputy County Counsel Ana Maria Herrera Murray also believes that a form to document the consent of the non minor dependent (NMD) would be helpful, as long as it is a form that the social worker can sign, affirming that the NMD has been explained the process and purpose, and that the NMD does consent to it. This would expedite matters, as opposed to creating a form for the NMD to sign. That would result in delays having to locate the NMD (not always an easy task) and then have the NMD actually sign the form. Even an electronic signature requirement could take time to obtain from the NMD.</p>	<p>Commenters were in favor of one form and the committee has maintained this feature of the proposal.</p> <p>After reviewing feedback from other commenters the committee is not proposing a rule, but relying on the forms to effectuate the new process.</p> <p>The committee concurs that there are benefits to documenting the consent of the nonminor and has revised the petition form to require that the time and manner that consent were obtained be recorded on the petition. 			<p>5. DCFS Juvenile Court Services believe a form is needed to document the consent of the NMD. Principal Deputy County Counsel Ana Maria Herrera Murray believes that after the court reinstates jurisdiction, the NMD will still have to sign the “Agreement,” which is form SOC 163.</p> <p>Principal Deputy County Counsel Ana Maria Herrera Murray has the following additional comments:            Regarding form JV-471:            Item “3”:            The current item “c” should be “d”.            Item “c” should read: The court finds that the County Agency has complied with the case plan by making Reasonable Efforts to finalize a permanent plan.</p> <p>Item “4”:            Should be amended by adding:            “c”: The placing Agency must immediately establish an Extended Foster Care agreement between the Agency and the non minor, by securing the non minor’s signature in form SOC-163. The placing Agency must ensure there is no break in services and supports.</p>	<p>The committee agrees that the statute provides that an agreement will need to be signed after the petition is granted, but that agreement is not the SOC 163 because this is not a voluntary reentry process, but rather a court ordered placement, and as a result the agreement would be the agreement signed by any foster child who elects to remain in care after age 18. That process does not involve the court, and thus does not need to be included with the court forms.</p> <p>The committee concurs that a “reasonable efforts” finding needs to be made, and has added language to both forms to allow for that finding in compliance with federal requirements.</p> <p>The order text on the form reflects that specific language of the statute. The form referenced by the commenter is not a court form, and does not appear to be the correct form for this agreement, which is not a voluntary reentry agreement, thus the committee is not adding the suggested language.</p>

			<p>“d”: The non minor dependent case number is _____ and the case is assigned to Department _____.</p> <p>**Note in item 4, part “c” of my comment, what I added to the existing proposed item “c” was the word Immediately (or it could be “within five calendar days”). The reason for this is that until the SOC 163 is signed by the NMD, there is no federal funding granted. In other words, the date in which that form is signed by the NMD is the earliest date when federal funding may apply. Therefore, if we do not ensure the order specifies that it must be done immediately, or within a very short, defined time, many cases may end up lingering and Los Angeles County will continue to have to support the case without reimbursement possibility. Currently, we are trying to find out if the State would allow the signing of the agreement (Form SOC 163), before the orders are made, but it is uncertain because the statute directs it to be done after the court makes the orders under WIC 388(f). The statute also directs that these NMDs must begin to receive benefits upon their 18th birthday, but these hearings cannot occur until after the youth is 18.</p>	<p>The case number is already reflected on the form, and assignment to a court department is not something that the court would order, but rather an administrative designation that should be the same department in which the action was filed.</p> <p>The statute does not specify a time frame for signing the new agreement for extended foster care, so the committee does not have the authority to order that it be done immediately. As the commenter notes, it is in the interest of the agency to complete the agreement in a timely way to ensure that federal eligibility is maintained and that it can comply with the statutory requirement that there be no break in services or supports to the nonminor, but how to accomplish that is an implementation issue for child welfare agencies to resolve. Similarly, the form cannot require that the agreement be signed before the petition is granted because the statute expressly provides that the court order is what triggers the redetermination of federal eligibility and then the agreement is signed to allow the nonminor to indicate how they will maintain eligibility. The committee also notes that the nonminor will have already signed such an agreement when they entered extended foster care, so it should be relatively easy to re-establish the agreement.</p>

5.	San Bernardino County Children and Family Services by Keysii Parker, Program Specialist	NI	<p>1. In order for the Court to make the findings and orders contained on the JV 471, information will need to be provided in support of 3. C. best interest. The form does not have a spot to further describe this supporting information. Will this then require another court report to support the request?</p> <p>2. The process is vague has to noticing requirements. This is also an administrative burden.</p> <p>3. CFS does not use the JV forms, but instead uses auto-text. [With the exception of a few] County Counsel prepares some of the JV forms. Will CFS be doing the forms themselves? CFS will need to decide whether to request an “optional use” so they can incorporate the noticing/findings and orders in the last PPR report before the Court orders NMD status. This would then save a separate process needing to be implemented. The eligibility issues and best interest could then be contained in that report and/or NAR packet avoiding additional work.</p>	<p>The committee has added a declaration on the petition to support the best interest finding so that the court has a basis to make that finding.</p> <p>The statute requires that the petition be served as provided on the form and has clarified it to require service by first class mail, personal service or electronic service as provided in Welfare and Institutions Code section 212.5.</p> <p>This comment appears to be arguing against the use of mandatory Judicial Council forms. The committee sought comment on that issue and concluded that mandatory forms were preferable to ensure that all required findings are made and consent is documented. The committee appreciates that this may result in additional work for child welfare agencies, but notes that the provisions of section 388(f) are optional and only need to be pursued by an agency when it determines that the workload is justified by the increased federal participation in funding the case.</p>

			<p>4. Who will make the eligibility determination and how with this information be provided to the SW in order to initiate this process?</p> <p>5. Regarding the NMD’s consent, the JV form should be signed by the NMD thereby eliminating the need for a separate consent form. This would notify the Court that the minor is in agreement.</p> <p>6. The JV 471 form does not have a place for the Court to acknowledge that a hearing was not set, but it was ordered based on the review of the request. Section 2 only indicates that a hearing was held and the following checked off participants were present.</p> <p>7. What impact if any will occur, if the JV 469/471 process was erroneously submitted and ordered by the Court? Does this terminate State funding otherwise available and prohibit reinstatement of that alternative funding source should federal eligibility not be in place.</p>	<p>The committee notes that eligibility determinations are a responsibility of the child welfare agency, and thus determinations about processes and procedures would need to be developed at the agency level.</p> <p>The committee agrees that an additional form is not needed, and has instead added a section to document the time and manner in which consent was obtained on the JV-469 to provide maximum flexibility for agencies.</p> <p>The JV-469 has a box for the court to set a hearing, and the JV-471 has a check box for the court to indicate if a hearing was held. Thus the committee believes that the forms allow the court to accommodate both possible situations – hearing or no hearing.</p> <p>Eligibility for extended foster care is distinct from eligibility for federal funding, so even if a court makes this order and it turns out that the nonminor is not federally eligible, the nonminor can still enter into a new extended foster care agreement and the case will be funded without federal dollars as was the case before the petition was filed.</p>

8.	Superior Court of Riverside County by Susan Ryan, Chief Deputy of Legal Services	AM	<p><u>Does the proposal appropriately address the stated purpose?</u></p> <p>Yes, the proposal seems to address the stated purposes. WIC § 388(f) authorizes the placing agency to file these requests with the court, this proposal provides the forms and processes for these types of requests and orders.</p> <p><u>Is a form that combines the request and initial order on whether a hearing is needed on the request workable?</u></p> <p>Typically for our court requests and orders being separate forms makes it easier to file the request for the date that it was received. That being said, the combined form for the request and initial order on whether a hearing is needed or not is workable.</p>	<p>The committee appreciates the support for the proposal.</p> <p>The committee was concerned about this issue and therefore raised it in the invitation to comment, but like this commenter, most seem to think that one form can work. To mitigate the challenges, the committee has limited the order aspect of the form to only that circumstance when a hearing is ordered, which should be a rare occurrence, as a result most of the time the form should just serve as the petition.</p>
