Title

Judicial Branch Administration: Strategic Plan for Technology 2019-2022

Summary

The Judicial Council Technology Committee (JCTC) and the Strategic Plan Update Workstream, appointed by the JCTC, recommend that the Judicial Council adopt the *Strategic Plan for Technology 2019-2022* to supersede the 2014-2018 plan. The updated plan was developed as a result of analyzing goals, judicial branch business drivers, and objectives, as well as by evaluating the benefits, outcomes, and measures of success, and was subsequently refined following circulation for branch and public comment. This plan provides a comprehensive and cohesive technology strategy, with clear, measurable goals and objectives at the branch level.

Recommendation

The JCTC recommends that the Judicial Council adopt, effective December 1, 2018, the *Strategic Plan for Technology 2019-2022*, which is the first update of the initial judicial branch technology strategic plan of 2014-2018. The technology strategic plan was established within the Technology Governance, Strategy, and Funding Proposal (*Court Technology Governance and Strategic Plan*), effective October 2014.
