Title

Judicial Branch Technology | Hybrid Courtroom Findings and Recommendations (No Action Required)

Summary

In 2021, the Information Technology Advisory Committee convened the Advancing the Hybrid Courtroom Workstream to study how courts have ensured successful remote proceedings since the onset of the COVID-19 pandemic in March 2020, make recommendations regarding best practices for technology and equipment for remote proceedings, and assist with development of a request for proposal consistent with those findings and recommendations. The workstream has now issued its final findings and recommendations in the *Report of the Advancing the Hybrid Courtroom Workstream: Findings and Recommendations*, which summarizes the workstream's work and sets forth a framework for courtrooms that are optimized for proceedings involving any number of physical or remote participants.

Speakers

Hon. Sheila F. Hanson, Chair, Information Technology Advisory Committee
Hon. Samantha P. Jessner, Vice-Chair, Information Technology Advisory Committee
Mr. Adam D. Creiglow, Chief Information Officer, Superior Court of Marin County
