Title

Judicial Branch Technology | Branchwide IT Project Allocation Update Fiscal Year 2022-23 (Action Required)

Summary

The Budget Act of 2022 appropriated funding for judicial branch technology modernization, of which \$8 million was allocated to the Judicial Council for branchwide modernization initiatives. The Judicial Council Information Technology office recommends allocating a portion of its funding directly to a trial court that is partnering with the Judicial Council to develop branchwide projects that align with the judicial branch's technology goals, thereby expanding the use of technology to best meet branchwide needs.

Recommendation

The Judicial Council Information Technology staff recommend that the Judicial Council, effective January 20, 2023, approve the proposed allocation of \$818,749 from the Judicial Council to the Superior Court of Los Angeles County for continuing development of branchwide automated solution services (i.e., software automating Electronic Courts of Appeal Records and Transcripts; and automating messaging and notification services).
