Title
Judicial Branch Operations: Next-Generation Hosting Framework Guide (Action Required)

Summary
The Information Technology Advisory Committee (ITAC) Next-Generation Hosting Strategy Workstream recommends the approval of its proposed *Next-Generation Hosting Framework Guide* and associated documents. The framework was developed following an assessment of courts' current practices regarding their hosting solutions, considerations and requirements in selecting new solutions, and envisioned strategies for next-generation hosting. It is intended to provide guidance to court leadership with technology planning as they move toward their strategic goals and objectives.

Recommendation
The Information Technology Advisory Committee, with the approval of the Judicial Council Technology Committee, recommends that the Judicial Council, effective March 2, 2018, approve the *Next-Generation Hosting Framework Guide*, recommendations, and associated templates, to provide court leadership with the foundation and guidance to inform their technology planning and decision making.

Speakers
Hon. Sheila F. Hanson, Chair, Information Technology Advisory Committee
