### Title

### Judicial Branch Operations: Next-Generation Hosting Framework Guide (Action Required)

### Summary

The Information Technology Advisory Committee (ITAC) Next-Generation Hosting Strategy Workstream recommends the approval of its proposed *Next-Generation Hosting Framework Guide* and associated documents. The framework was developed following an assessment of courts' current practices regarding their hosting solutions, considerations and requirements in selecting new solutions, and envisioned strategies for next-generation hosting. It is intended to provide guidance to court leadership with technology planning as they move toward their strategic goals and objectives.

### Recommendation

The Information Technology Advisory Committee, with the approval of the Judicial Council Technology Committee, recommends that the Judicial Council, effective March 2, 2018, approve the *Next-Generation Hosting Framework Guide*, recommendations, and associated templates, to provide court leadership with the foundation and guidance to inform their technology planning and decision making.

### Speakers

Hon. Sheila F. Hanson, Chair, Information Technology Advisory Committee
